Valorization Strategies for Pyrolytic Lignin

Monique Bernardes Figueirêdo

The work described in this thesis was performed at the Department of Chemical Engineering (ENGINEERING and TECHNOLOGY institute Groningen - ENTEG), Faculty of Science and Engineering, University of Groningen, the Netherlands.

This research project was financially supported by the Science without Borders program from the Brazilian National Council for Scientific and Technological Development (CNPq), grant number 232493/2014-6.

Valorization Strategies for Pyrolytic Lignin

PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus prof. C. Wijmenga
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on

17 January 2020 at 14.30 hours

by

Monique Bernardes Figueirêdo

Born on 5 March 1990
in Salvador, Brazil

Supervisor

Prof. dr. ir. H.J. Heeres

Co-supervisor

Dr. P.J. Deuss

Assessment Committee

Prof. dr. F. Picchioni

Prof. dr. P.P. Pescarmona

Prof. dr. P.C.A. Bruijninx

*Dedicated to my inspiring grandmothers
Isabel, Luisa and Olga.*

Table of Contents

Chapter 1.

Pyrolytic lignin: a promising feedstock for fuels and valuable chemicals	9
--	---

Chapter 2.

In-depth structural characterization of the lignin fraction of a pine-derived pyrolysis oil	35
---	----

Chapter 3.

Hydrotreatment of pyrolytic lignins to aromatics and phenolics using heterogeneous catalysts	63
--	----

Chapter 4.

Catalytic hydrotreatment of pyrolytic lignins from different sources to biobased chemicals: identification of feed-product relations	95
--	----

Chapter 5.

Valorization of pyrolysis liquids: ozonation of the pyrolytic lignin fraction and model components	129
--	-----

Chapter 6.

Efficient depolymerization of lignin to biobased chemicals using a two-step approach involving ozonation in a continuous flow micro-reactor followed by catalytic hydrotreatment	163
--	-----

Chapter 7.

Ozone mediated depolymerization and solvolysis of technical lignins at ambient conditions in ethanol	197
--	-----

Chapter 8.

A two-step approach for the conversion of technical lignins to biofuels	225
---	-----

Addendum
