New insights into the disinfection of the root canal system using different research models

PhD thesis

to obtain the degree of PhD of the
University of Groningen
on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans
and
to obtain the degree of PhD at the
University of São Paulo
on the authority of the
Rector Prof. Vahan Agopyan
and in accordance with
the decision by Pro-Rector of Post-Graduation

Double PhD degree

This thesis will be defended in public on
Wednesday 1 July 2020 at 14:30 hours

by

Thais Cristina Pereira

born on 25 May 1989,
in Promissão, Brazil

Supervisors

Prof. L.W.M. van der Sluis

Co-supervisors

Prof. F.B. de Andrade

Dr. P.K. Sharma

Dr. W.J. van der Meer

Assessment committee

Table of Contents

Chapter 1	General introduction and aim of this thesis	9
Chapter 2	Intratubular decontamination ability and physico-chemical properties of calcium hydroxide pastes Thais Cristina Pereira; Layla Reginna da Silva Munhoz Vasconcelos; Márcia Sirlene Zardin Graeff; Maria Cristina Marcucci Ribeiro; Marco Antonio Hungaro Duarte; Flaviana Bombarda de Andrade <i>Clin Oral Investig</i> , 2018, 10.1007/s00784-018-2549-0	37
Chapter 3	Antibacterial properties of silver nanoparticles as a root canal irrigant against <i>Enterococcus faecalis</i> biofilm and infected dentinal tubules Clarissa Teles Rodrigues; Flaviana Bombarda de Andrade; Layla Reginna da Silva Munhoz Vasconcelos; Raquel Zanin Midena; Thais Cristina Pereira; Milton Carlos Kuga; Marco Antonio Hungaro Duarte; Norberti Bernardineli <i>Int Endod J</i> , 2018, 10.1111/iej.12904	63
Chapter 4	Biofilm removal from an artificial isthmus and lateral canal during syringe irrigation at various flow rates: a combined experimental and Computational Fluid Dynamics approach Thais Cristina Pereira; Christos Boutsoukakis; René Dijkstra; Xenos Petridis; Michel Versluis; Flaviana Bombarda de Andrade; Wicher Jurjen van der Meer; Prashant Sharma; Lucas Wilhelmus Maria van der Sluis; Marcus Vinícius Reis Só <i>Submitted to International Endodontic Journal</i>	87
Chapter 5	Chemical and mechanical influence of root canal irrigation on biofilm removal from lateral morphological features of the root canal and dentinal tubules.	111

Thais Cristina Pereira; René Dijkstra; Xenos Petridis;
Prashant Sharma; Wicher Jurjen van der Meer,
Lucas Wilhelmus Maria van der Sluis; Flaviana Bombarda
de Andrade

Submitted to International Endodontic Journal

Chapter 6 The influence of time and irrigant refreshment on biofilm removal from lateral morphological features. 153

Thais Cristina Pereira; René Dijkstra; Xenos Petridis;
Wicher Jurjen van der Meer; Prashant Sharma; Flaviana
Bombarda de Andrade; Lucas Wilhelmus Maria van der
Sluis.

Accepted for publication in International Endodontic Journal

Chapter 7 General discussion 176

Summary 195

Samenvatting 200

Sumário 204
