Effectiveness and safety of medicines used in COPD patients

Pharmacoepidemiological studies

PhD thesis

to obtain the degree of PhD at the
 University of Groningen
 on the authority of the
 Rector Magnificus Prof. C. Wijmenga
 and in accordance with
 the decision by the College of Deans.

This thesis will be defended in public on

Friday 8 May 2020 at 14.30 hours

by

Yuanyuan Wang

born on 15 February 1988
 in Henan, China

Supervisors

Prof. E. Hak

Prof. H.M. Boezen

Assessment Committee

Prof. T.J.M. Verheij

Prof. J. van der Palen

Prof. Y. Stienstra

TABLE OF CONTENTS

Chapter 1	General Introduction	7
Part I	Effects of antibiotic use for COPD exacerbations and potential DDIs during COPD exacerbation management	
Chapter 2	Effects of Prophylactic Antibiotics on Patients with Stable COPD: A Systematic Review and Meta-Analysis of Randomized Controlled Trials	21
Chapter 3	The influence of age on real-life effects of doxycycline for acute exacerbations among COPD outpatients: a population-based cohort study	43
Chapter 4	Real-world short- and long-term effects of antibiotic therapy on acute exacerbations of COPD in outpatients: a cohort study under the PharmLines Initiative	61
Chapter 5	Improving antibacterial prescribing safety in the management of COPD exacerbations: systematic review of observational and clinical studies on potential drug interactions associated with frequently prescribed antibacterials among COPD Patients	81
Part II	Neuropsychiatric safety of varenicline use for smoking cessation and the application of prescription sequence symmetry analysis in drug safety evaluation	
Chapter 6	Neuropsychiatric safety of varenicline in the general and COPD population with and without psychiatric disorders: a retrospective inception cohort study in a real-world setting	119
Chapter 7	Risk of neuropsychiatric adverse events associated with varenicline treatment for smoking cessation: a prescription sequence symmetry analysis	145
Chapter 8	Effect estimate comparison between the prescription sequence symmetry analysis and parallel group study designs: a systematic review	165
Chapter 9	General discussion	183
Chapter 10	Summary	197
	Samenvatting	201
	Acknowledgement	204
	List of publications	208
	About the author	211
