PET Methodology in Rat Models of Parkinson's Disease

Anna Schildt

The research reported in this thesis was carried out at the Department of Nuclear Medicine and Molecular Imaging of the University Medical Center Groningen, Groningen, The Netherlands and at the PET-MRI Imaging Center of the University of British Columbia, Vancouver, British Columbia, Canada.

Financial support for the research reported in the thesis was obtained by scholarships from the Djavad Mowafaghian Centre for Brain Health, Vancouver, British Columbia, Canada, the Research School of Behavioral and Cognitive Neurosciences (BCN), University of Groningen, Groningen, The Netherlands, and the University Medical Center Groningen, Groningen, The Netherlands.

Printing of this thesis was financially supported by the Library of the University of Groningen and the Research School of Behavioral and Cognitive Neurosciences.

PET Methodology in Rat Models of Parkinson's Disease

PhD thesis

to obtain the degree of PhD at the
 University of Groningen
 on the authority of the
 Rector Magnificus Prof. C. Wijmenga
 and in accordance with
 the decision by the College of Deans.

This thesis will be defended in public on

Wednesday 27 May 2020 at 9.00 hours

by

Anna Schildt

born on 12 October 1987
 in Magdeburg, Germany

Supervisors

Prof. E. F. J. de Vries

Prof. V. Sossi

Prof. R. A. J. O. Dierckx

Co-supervisor

Dr. J. Doorduyn

Assessment committee

Prof. T. van Laar

Prof. A. A. Lammertsma

Prof. R. Boellaard

Paranymphs

Elisabeth Pfaehler

Lara García Varela

Contents

Chapter 1.	Introduction.....	9
Chapter 2.	Quantification of the Acetylcholinesterase Radioligand [¹¹ C]-PMP in Rats.....	33
Chapter 3.	Modeling of [¹⁸ F]-FEOBV Pharmacokinetics in Rat Brain.....	65
Chapter 4.	Effect of Dopamine D ₂ Receptor Antagonists on [¹⁸ F]-FEOBV Binding.....	91
Chapter 5.	Exercise Does Not Affect the Cholinergic Activity in a Striatal 6-OHDA Rat Model of Parkinson's Disease.....	115
Chapter 6.	Single Inflammatory Trigger Leads to Neuroinflammation in LRRK2 Rodent Model without Degeneration of Dopaminergic Neurons.....	141
Chapter 7.	Summary.....	181
Chapter 8.	Future Perspective.....	191
Chapter 9.	Nederlandse Samenvatting.....	211
Chapter 10.	Acknowledgements.....	221
