Table of contents

Chapter 1	General introduction	9
Part I:	Cost-effectiveness of vaccination against herpes zoster	
Chapter 2	Cost-effectiveness of vaccination against herpes zoster	27
Chapter 3	Cost-effectiveness of vaccination of the elderly against herpes zoster in The Netherlands	55
Chapter 4	Cost-effectiveness of vaccination of immunocompetent older adults against herpes zoster in the Netherlands: a comparison between the adjuvanted subunit and live-attenuated vaccine	73
Chapter 5	The ‘dynamic’ marriage between varicella and zoster	103
Part II:	Cost-effectiveness of vaccination against influenza	
Chapter 6	A systematic review of the health economic consequences of quadrivalent influenza vaccination	109
Chapter 7	Cost-effectiveness of quadrivalent versus trivalent influenza vaccine in the United States	141
Chapter 8	The cost-effectiveness of trivalent and quadrivalent influenza vaccination in communities in South Africa, Vietnam and Australia	165
Annex to Chapter 8	Additional calculations belonging to the manuscript: The cost-effectiveness of trivalent and quadrivalent influenza vaccination in communities in South Africa, Vietnam and Australia	187
Chapter 9	Cost-effectiveness of paediatric influenza vaccination in The Netherlands	191
Chapter 10	Unremarked or unperformed? Systematic review on reporting of validation efforts of health economic decision models in seasonal influenza and early breast cancer	217
Chapter 11	General discussion	241
