Coevolution in host–parasite systems

Behavioural strategies of native and invasive hosts

PhD thesis

to obtain the degree of PhD at the
 University of Groningen
 on the authority of the
 Rector Magnificus Prof. C. Wijmenga
 and in accordance with
 the decision by the College of Deans.

This thesis will be defended in public on

Friday 10 July 2020 at 14:30 hours

by

Sajad Ashghali Farahani

born on 30 June 1979
 in Tehran, Iran

Supervisors

Prof. J. Komdeur
Prof. J. Palsbøll

Assessment Committee

Prof. B. Helm
Prof. M. Naguib
Prof. F. Cezilly

CONTENTS

Chapter 1	General introduction: invasion and parasitism	4
Box 1	Effects of parasites on the behaviour of native and invasive intermediate hosts	20
Chapter 2	The effects of parasites upon non-host predator avoidance behaviour in ..24 native and invasive gammarids.	
Chapter 3	The acanthocephalan parasite <i>Polymorphus minutus</i> increases the positive rheotaxis behavior of its gammarid hosts.	37
Box 2	Effects of salinity and parasites on physiological changes of native and invasive intermediate-hosts	46
Chapter 4	Experimental evidence of parasitic infection increasing salinity tolerance of the native gammarid hosts	59
Chapter 5	General discussion and synthesis	62
