TABLE OF CONTENTS

1.	General introduction and aims of the thesis	9
Part I	Fecal continence mechanisms	29
2.	The puborectal continence reflex: a new regulatory mechanism controlling fecal continence <i>International Journal of Colorectal Disease 2018</i>	31
3.	Fecal continence for solid and liquid stool: the function of the anal-external sphincter continence reflex and the puborectal continence reflex <i>Diseases of the Colon and Rectum (accepted for publication)</i>	45
4.	The puborectal continence reflex functions independently of the pudendal nerve <i>Colorectal Disease 2019</i>	59
Part II	Evaluation of colorectal diseases	73
5.	Underdiagnosis of mild congenital anorectal malformations <i>The Journal of Pediatrics 2017</i>	75
6.	Congenital anorectal malformation severity does not predict severity of congenital heart defects <i>The Journal of Pediatrics 2016</i>	85
7.	New insights into the treatment of fecal incontinence in patients with congenital anorectal malformations <i>Submitted</i>	97
8.	Fecal continence outcomes are associated with the type, height, and stage procedure of ileal pouch-anal anastomosis <i>International Journal of Colorectal Disease 2020 (online ahead of print)</i>	113
9.	General discussion and future perspectives	131
10.	Summary and conclusions	143
11.	Nederlandse samenvatting en conclusies	149
	Appendices	161
