Effects of age and fatigue on human gait

Paulo Cezar Rocha dos Santos

The experiments described in chapters 3, 4 and 5 were conducted at the Center for Human Movement Science, University Medical Center Groningen, Groningen, the Netherlands.

PhD training was facilitated by Research Institute School of Health Research (SHARE), part of the Graduate School of Medical Science Groningen, and by the Graduate Program in Movement Sciences, Institute of Biosciences, São Paulo State University.

The printing of this thesis was financially supported by the University of Groningen, University Medical Science Groningen and Research Institute SHARE

Effects of age and fatigue on human gait

PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans

and

to obtain the degree of PhD at the
São Paulo State University – UNESP
on the authority of the
Rector Magnificus Prof. S.R. Valentini,
and in accordance with
the decision by the Dean of UNESP.

Double PhD degree

This thesis will be defended in public on
Wednesday 7 October 2020 at 18.00 hours

by

Paulo Cezar Rocha dos Santos

born on 16 November 1985
in Osasco – SP, Brasil

Supervisors

Prof. T. Hortobágyi

Prof. C.J.C. Lamothe

Prof. L.T.B. Gobbi

Co-supervisors

Dr. C.A.T. Zijdewind

Dr. F.A. Barbieri

Assessment Committee

Prof. U. Granacher

Prof. E. Otten

Prof. N.M. Maurits

Prof. H. Houdijk

TABLE OF CONTENTS

Chapter 1	General introduction	6
Chapter 2	Effects of experimentally induced fatigue on healthy older adults' gait: a systematic review	18
Chapter 3	Minimal effects of age and prolonged physical and mental exercise on healthy adults' gait	46
Chapter 4	Older compared with young adults perform 467 fewer sit-to-stand trials resulting in minimized changes in muscle activation and voluntary force	68
Chapter 5	Age-specific modulation of intermuscular beta coherence during gait before and after experimentally induced fatigue	86
Chapter 6	General Discussion	112
Appendix	Summary	128
	Samenvatting	130
	Resumo	132
	Acknowledgements	134
	About the author	139
	Journal Publications	140
	Research Institute SHARE	146
