Salivary gland progenitor cells and epithelium in primary Sjögren's syndrome

Pathology and treatment

Xiaoyan Wang

The research presented in this thesis was supported by grants from:

China Scholarship Council (CSC grant No. 201606220074), Dutch Arthritis Foundation Translational Research grant (T015-052), Dutch Arthritis Foundation Long Term Project grant (LLP-29), and de Stichting De Cock-Hadders (No. 2019-72 and No. 2020-70)

The research presented in this thesis was performed at:

The Sjögren's syndrome expertise centre, University Medical Center Groningen.

The printing and distribution of this thesis were supported by:

Rijksuniversiteit Groningen

The Graduate School of Medical Sciences, University Medical Center Groningen

The Dutch association of Sjögren's patients (NVSP)

Salivary gland progenitor cells and epithelium in primary Sjögren's syndrome

Pathology and treatment

PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on

Wednesday 28 October 2020 at 9.00 hours

by

Xiaoyan Wang

born on 4 October 1990
in Shandong, China

Supervisors

Prof. F.G.M. Kroese

Prof. H. Bootsma

Co-supervisor

Dr. S.A. Pringle

Assessment Committee

Prof. N. A. Bos

Prof. S.C.D. van Ijzendoorn

Prof. S. Bombardieri

Paranymphs

Dr. G.M.P.J. Verstappen
