Studies on delirium and associated cognitive and functional decline in older surgical patients

The time is now to improve perioperative care and
outcomes

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. C. Wijmenga
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

woensdag 28 oktober 2020 om 14.30 uur

door

Sara Jozien Elzemien Beishuizen

geboren op 10 juni 1987
te Amsterdam

Promotores

Prof. dr. B.C. van Munster

Prof. dr. S.E.J.A. de Rooij

Beoordelingscommissie

Prof. dr. I.E.C. Sommer

Dr. J.H. de Ruiter MBA

Prof. dr. F.U.S. Mattace Raso

Table of contents

Chapter 1: General introduction	6
Part 1: Studies on factors that show a temporal relation with the development of delirium in the perioperative period	13
<hr/>	
Chapter 2: Timing is critical in determining the association between delirium and S100 calcium-binding protein B	14
Chapter 3: Unraveling the relationship between delirium, brain damage and subsequent cognitive decline in a cohort of individuals undergoing surgery for hip fracture	19
Chapter 4: The effect of treatment of anemia with blood transfusion on delirium: a systematic review	35
Chapter 5: The effect of blood transfusion on delirium incidence	68
Part 2: Studies on delirium and its effects on long term cognitive and functional outcome	84
<hr/>	
Chapter 6: Distinct cognitive trajectories in the first year after hip fracture	85
Chapter 7: Delirium, functional decline and quality of life after transcatheter aortic valve implantation: an explorative study	106
Chapter 8: Summary	120
Chapter 9: General discussion	125
Appendices	137
<hr/>	
Nederlandse samenvatting	138
