Adherence to antihypertensive or antihyperlipidemic co-medications in diabetes: patterns, predictors, and intervention

PhD thesis

to obtain the degree of PhD at the
 University of Groningen
 on the authority of the
 Rector Magnificus Prof. C. Wijmenga
 and in accordance with
 the decision by the College of Deans.

This thesis will be defended in public on

Tuesday 6 October 2020 at 9.00 hours

by

Sofa Dewi Alfian

born on 27 July 1988
 in Tasikmalaya, Indonesia

Supervisors

TABLE OF CONTENTS

Chapter 1	General Introduction	9
PART I	Non-adherence and non-persistence to cardiometabolic medications in patients with type 2 diabetes: pharmacy data measurement	
Chapter 2	A systematic review finds inconsistency in the measures used to estimate adherence and persistence to multiple cardiometabolic medications	19
Chapter 3	Pharmacy-based predictors of non-adherence, non-persistence and reinitiation of antihypertensive drugs among patients on oral diabetes drugs in the Netherlands	57
Chapter 4	Pharmacy-based predictors of non-persistence and non-adherence to statin treatment among patients on oral diabetes medication in the Netherlands	81
PART II	Developing and testing a targeted and tailored pharmacist-led intervention to improve adherence to antihypertensive medications among patients with type 2 diabetes in Indonesia	
Chapter 5	Modifiable factors associated with non-adherence to antihypertensive or antihyperlipidemic drugs are dissimilar: a multicentre study among patients with diabetes in Indonesia	105
Chapter 6	Targeted and tailored pharmacist-led intervention to improve adherence to antihypertensive drugs among patients with type 2 diabetes in Indonesia: study protocol of a cluster randomised controlled trial	125
Chapter 7	Effectiveness of a targeted and tailored pharmacist-led intervention to improve adherence to antihypertensive drugs among patients with type 2 diabetes in Indonesia: a cluster randomised controlled trial	157
Chapter 8	Process evaluation of implementing a targeted and tailored pharmacist-led intervention to improve adherence to antihypertensive drugs among patients with type 2 diabetes in Indonesian Community Health Centres	185
Chapter 9	General Discussion	201
Addendum	Summary	218
	<i>Nederlandse Samenvatting</i>	220
	Acknowledgements	222
	About the Author	226
	PhD Portfolio	227
