PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on
Tuesday 10 November 2020 at 11.00 hours

by

Congying Xia

born on 19 July 1993
in Hubei, China

Supervisors

Prof. R. Vliegenthart

Prof. M. Oudkerk

Co-supervisor

Dr. M. Vonder

Assessment Committee

Prof. J.L. Hillege

Prof. A.H.E.M. Maas

Prof. C.H. Slump

CONTENTS

1. General introduction	9
-------------------------	---

Part 1. Calcium scoring in a population-based study for the Big-3

2. Early imaging biomarkers of lung cancer, COPD and coronary artery disease in the general population: rationale and design of the ImaLife (Imaging in Lifelines) Study	25
3. High-pitch dual-source CT for coronary artery calcium scoring: a head-to-head comparison of non-triggered chest versus triggered cardiac acquisition	47

Part 2. Cardiovascular risk factors and coronary artery calcium

4. Cardiovascular risk factors and coronary calcification in a middle-aged Dutch population: the ImaLife study	71
5. Association between skin autofluorescence and coronary calcification in the general population	91

Part 3. Coronary artery calcium and cognitive function

6. The relationship of coronary artery calcium and clinical coronary artery disease with cognitive function: a systematic review and meta-analysis	113
7. Coronary artery calcium and cognitive function in Dutch adults: cross-sectional results of the population-based ImaLife study	157

Part 4. General discussion and summary

8. General Discussion	179
-----------------------	-----

9. Summary / Samenvatting	193
10. Acknowledgments and appendices	203
