Acknowledgements

Looking back to the last four years, I have lots of great memories, moments of joy but also moments of hard work. These memories were created together with the people around me. I have not made the journey alone, I did it together with my friends, family and colleagues. I would herewith like to express my acknowledgements to those.

To start with, I would like to thank Prof. dr. Rainer Bischoff, my promotor and supervisor, for guiding me into becoming a researcher. You always stayed positive, enthusiastic and full of ideas, and in this way, inspiring me. Thank you also, for showing me appreciation for my work.

Thanks also to Prof. dr. Sabeth Verpoorte for being a good support foremost during my first years. Especially I would like to thank you for accepting me as a student in your group in 2006 and in this way opening the way to my new life in Groningen. I also would like to thank you for being part of the reading committee.

Next, I would like to thank Prof. dr. Peter Bergsten, you were the driving force behind getting me to Groningen in the first place. I am very greatful for the fact that you took me under your wings in the beginning of 2006. You inspired me a lot with your open and positive attitude.

Thanks to Prof. dr. Sybren Wijmenga and Prof. dr. Jan Maarten van Dijl, who were also part of the reading committee, for taking the time to evaluating my thesis.

Thanks to the people in the TIPharma consortium. Dr. Alain van Gool, thank you for being a great project leader, encouraging me and giving me appreciation, Dr. Theo Luider, you were also a good project leader, keeping a positive attitude. Also thanks to all the other colleagues in the TIP consortium; Dr. Robert-Jan Lamers, Shanna Shi, Agnieszka Smolinska, Dr. Marek Noga, Dr. Macel Stoop, Dr. Amos Attali, Dr, Lionel Blanchet, Dr. Leon Coulier, Dr. Tinka Tuinstra, Prof. dr. Thomas Hankemeier, Prof. dr. Sybren Wijmenga and Prof. dr. Lutgarde Buydens, you were all great collaborators and we had many good discussions together.

Thanks to all colleagues at the Analytical Biochemistry group. I have spent many hours together with you and I have enjoyed your company. I feel very blessed to have had such great people around me at my work, I always felt at home in the group, everyone have been so helpful and friendly, and there was no competition.
between us. Laurette and Lorenza, my office mates and friends, thanks for all fun and the support, keep up the spirit, soon it’s your time! Thanks Christin and Peter for your help with the dataprocessing and for being great friends. Nicolas, Krisztina, Jos, Jan and Natalia, thanks for the help with work in the lab. Eslam, Julien, Ishtiaq, and Vikram thank you for the nice lunches, and friendship. Thank you Andries, Hjalmar, Margot and Annie for help with mass spectrometry-related issues. Thank you to my super-students; Christiaan and Balaji, I really enjoyed to be your supervisor. I am also happy to have learned to know the new members of the group; Karin, Hanna and Sara, you are great as well. Jolanda, thank you for all help with everything between heaven and earth. Also thanks to Theo and Ramses, my office-mates during my first year.

I would like to thank all members of the Pharmaceutical Analysis group; Byeong-Ui, L-J, Paul, Patty, Harm, Laurent, Corry, Maurits and Heiko, you also helped to spread the good feeling at work and I enjoyed chatting with you in the corridor or at the borrels, Maria; you are a happiness injection that spread good feelings, thanks for being a good friend.

Thanks to my paranymphs. Abdou, my homie, you became my best friend from day one, and you still are. Berend, thanks for your help with all the computer issues and for being my friend. Thanks both of you for joining me as paranymphs, by my side at the defence.

Thank you also Arnold, Alice, Wiktor, Yuli and Valentina, you meant a lot to me during my time in Groningen, you are great.

Jimmy, tack för att du flyttade med mig till Holland och tack för tiden vi hade tillsammans. Tack också till mina vänner i Sverige, för allt kul vi haft tillsammans på somrar och jullov; Björn, Jonas, Jenny & Joel, Jenkan och Ebbe.

Bedankt naar de Voortman familie voor alle steun en interesse dat jullie heb gehad voor mijn werk, dank jullie wel voor nemen me in als een deel van jullie familie. Ik voel me t’huys bij jullie. Bedankt ook Theo, Meine en Patrick voor leuke tijden in de achterhoek.

Tack till alla släktingar som visat intresse för mitt liv i Holland och mina kompilerade experiment, för att nämna några, Anne-Maj, Gunna och Åke, Karl-Erik och Ulla, Maggan och Tony, Maja, Gun-Britt och Jan, tack.

Woutis, my dear, I am very greatful that you came my way and I am very happy to share my life with you. You have been a great support in good and bad times, you give me so much love and appreciation, I know it was not always easy to handle all the stress my work brought, especially the last years. I will make it up to you. I really appreciate all you have done for me. Together with you I can look into the future. I hope we will stay together for the rest of out lives. Jag älskar dig!

Concludingly I would like to thank everyone that crossed my road in one or another way during the last four years, no one is forgotten you made a difference and you are all appreciated.
