The research described in this thesis was carried out at Zernike Institute of Advanced Materials of the University of Groningen, the Netherlands and Laboratory of Molecular Bacteriology REGA Institute, KU Leuven, the Belgium. The research is financially supported by the Netherlands Organisation for Scientific Research (NWO) and the European Research Council (ERC). The author (Y.A.M.) is financially supported by The Doctoral Scholarship of Indonesia Endowment Fund for Education (Lembaga Pengelola Dana Pendidikan – Republik Indonesia/LPDP-RI).

KU LEUVEN

The Role of Structural Dynamics in Protein Function and Evolvability

PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans

and

to obtain the degree of Doctor in Biomedical Sciences at
Katholieke Universiteit Leuven
on the authority of the
Rector Prof. Luc Sels
and in accordance with
the decision by the Doctoral School Committee

Double PhD degree

This thesis will be defended in public on
Friday, 5th February 2021 at 11.00 hours

by

Yusran Abdillah Muthahari

born on 29th April 1993
in Garut, Indonesia

Supervisors

Prof. A. Economou

Prof. T. Cordes

Prof. W. Roos

Co-supervisors

Dr. G. Gkouridis

Assessment Committee

Prof. E. A. Lemke

Prof. F. Rousseau

Prof. G. Maglia

Prof. J. Schymkowitz

Contents

Contents.....	5
Chapter 1. Introduction	7
The Structure of a Protein.....	10
The Path of Protein Folding.....	12
Protein Evolution	18
Bibliography.....	23
Chapter 2. Plasticity and Conformational Variability of Cherry-core Proteins	27
Abstract.....	28
Introduction	29
Results.....	31
Discussion and Outlooks.....	40
Materials and Methods	42
Supplementary Information	44
Bibliography.....	47
Chapter 3. The Role of C-tails on The Evolution of Structural Dynamics in Bilobed Proteins....	53
Abstract.....	54
Introduction	55
Results.....	58
Discussion	64
Materials and Methods	73
Supplementary Information	81
Bibliography.....	84
Chapter 4. Oligomeric Assembly of LysR-type Transcription Regulator	91

Abstract.....	92
Introduction	93
Results.....	95
Discussion	104
Materials and Methods	106
Supplementary Information	111
Bibliography.....	112
Chapter 5. The Modules dictate the Functional Specialization of the Ancestral Protein	115
Abstract.....	116
Introduction	117
Results.....	119
Discussion	139
Materials and Methods	143
Supplementary Information	150
Bibliography.....	154
Supplementary Information and Files.....	158
Samenvatting.....	171
Summary.....	174
Acknowledgement	178
