Contents

Chapter 1 Introduction

Part 1: What are the effects of fetal growth restriction?

Chapter 2 Early-onset Fetal Growth Restriction: A Systematic Review on Mortality and Morbidity

Part 2: Why is there a need for standardization in fetal growth restriction studies and medical care?

Chapter 3 Building Consensus and Standards in Fetal Growth Restriction Studies

Chapter 4 Temporal variation in definition of fetal growth restriction in the literature

Part 3: Is there a possibility to come to consensus how to diagnose fetal growth restriction antenatal, postnatal and after fetal demise?

Chapter 5 Consensus Definition of Fetal Growth Restriction: A Delphi Procedure

Chapter 6 Consensus Definition and Essential Reporting Parameters of Selective Fetal Growth Restriction in Twin Pregnancy: A Delphi Procedure

Chapter 7 Consensus Based Definition of Growth Restriction in the Newborn

Chapter 8 Consensus definition of fetal growth restriction (FGR) in intra uterine fetal death (IUFD): a Delphi procedure

Part 4: How to improve the methodology in consensus procedures?

Chapter 9	Testing online panel supports face-to-face meeting results of two Core Outcome Set consensus procedures; An additional on line consultation round
Chapter 10	General discussion and future perspectives
Chapter 11	Summary/Nederlandse samenvatting
Chapter 12	Appendices Review committee List of publications Dankwoord Curriculum vitae Research institute SHARE
