Risk variables for the development of obesity and type 2 diabetes

Thomas P. van der Meer

Risk variables for the development of obesity and type 2 diabetes

PhD thesis, University of Groningen, the Netherlands

The studies in this thesis have been made possible by the Dutch Diabetes Research Foundation (junior Fellowship mw. J.V. van Vliet-Ostaptchouk, project grant 2013.81.1673) and the Endocrinology Fund (as part of the Ubbo Emmius Fund).

Financial support for the printing of this thesis was kindly provided by the University of Groningen Medical Center, the University of Groningen, the Graduate School of Medical Sciences of the University of Groningen, and the Endocrinology Fund (as part of the Ubbo Emmius Fund).

Cover design: Noortje Smit and Off Page, Amsterdam

Layout and printing: Off Page, Amsterdam

Table of Contents

Chapter 1	General introduction and thesis outline	9
Part I	Exposure to endocrine disrupting chemicals in the Dutch population and its role in the development of obesity and type 2 diabetes	21
Chapter 2	Distribution of non-persistent endocrine disruptors in two different regions of the human brain	23
Chapter 3	Development and interlaboratory validation of two fast UPLC-MS/MS methods determining urinary bisphenols, parabens and phthalates	41
Chapter 4	Exposure to endocrine disrupting chemicals in the Dutch general population is associated with adiposity-related traits	69
Chapter 5	Endocrine disrupting chemicals during diet-induced weight loss – a post-hoc analysis of the LOWER study	103
Chapter 6	Associations between endocrine disrupting chemicals and type 2 diabetes in a pre-diabetic population	129
Chapter 7	Temporal exposure and consistency of endocrine disrupting chemicals in a longitudinal study of individuals with impaired fasting glucose	157
Part II	Assessment, contextualization, and implementation of risk variables for the development of type 2 diabetes	191
Chapter 8	Data-driven assessment, contextualization and implementation of 134 variables in their risk for type 2 diabetes: An analysis of Lifelines, a prospective cohort study in the Netherlands	193
Chapter 9	Summary, general discussion and future perspectives	249
Chapter 10	Appendices	271
	Nederlandse samenvatting	273
	Acknowledgements (Dankwoord)	281
	About the author	285
	List of publications	287
