Chronic limb-threatening ischemia: optimizing endovascular and medical treatment

PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on

Monday 14 June 2021 at 16.15 hours

by

Jetty Ipema

born on 1 June 1991
in Glimmen

Supervisors

Prof. J.P.P.M. de Vries

Dr. Ç. Ünlü

Assessment committee

Prof. J.A.M. Zeebregts

Prof. W. Wisselink

Prof. H.J.M. Verhagen

Contents

Chapter 1	General introduction	9
Endovascular treatment		
Chapter 2	Drug-coated balloon angioplasty vs. standard percutaneous transluminal angioplasty in below-the-knee peripheral arterial disease: a systematic review and meta-analysis	23
Chapter 3	Outcomes of the paclitaxel-eluting Eluvia stent for long femoropopliteal lesions in Asian patients with predominantly chronic limb-threatening ischemia	49
Chapter 4	Early and midterm experience with the Absorb everolimus-eluting bioresorbable vascular scaffold in Asian patients with chronic limb-threatening ischemia: one-year clinical and imaging outcomes from the DISAPEAR registry	67
Chapter 5	A systematic review and meta-analysis of bioresorbable vascular scaffolds for below-the-knee arterial disease	85
Chapter 6	Midterm outcomes of an everolimus-eluting bioresorbable vascular scaffold in patients with below-the-knee arterial disease: a pooled analysis of individual patient data	111
Chapter 7	Repeatability, and intraobserver and interobserver agreement of two dimensional perfusion angiography in patients with chronic limb-threatening ischemia	129

Medical treatment

Chapter 8	Medical adjunctive therapy for patients with chronic limb-threatening ischemia: a systematic review	151
Chapter 9	Antiplatelet and anticoagulation therapy after revascularization for lower extremity artery disease: a national survey and literature overview	219
Chapter 10	Short-term clinical outcomes of single versus dual antiplatelet therapy after infrainguinal endovascular treatment for peripheral arterial disease	255
Chapter 11	Summary, general discussion and future perspectives	275
	Nederlandse samenvatting, algemene discussie en toekomstvisie	290
Chapter 12	Graduation committee	308
	Co-authors and affiliations	309
	Dankwoord	311
	List of publications	313
	Curriculum vitae	315
