UNIVERSITÉ DE NANTES

Experimental investigations into the semantics of distributive marking

Data from Serbian, Korean and Dutch

PhD thesis

to obtain the degree of PhD of the
 University of Groningen
 on the authority of the
 Rector Magnificus Prof. C. Wijmenga
 and in accordance with
 the decision by the College of Deans

and

to obtain the degree of PhD of the
 University of Nantes
 on the authority of the
 President Prof. C. Bernault
 and in accordance with
 the decision by the Doctoral School ELICC

Double PhD degree

This thesis will be defended in public

Friday 25 June 2021 at 14.30 hours

by

Ana Bosnić

born on 24 March 1988
 in Sombor, Serbia

Supervisors

Prof. N.A. Taatgen

Prof. H. Demirdache

Co-supervisor

Dr. J.K. Spenader

Assessment committee

Prof. P. Hendriks

Prof. I. A. Sekerina

Dr. S. Cable

Dr. P. Cabredo Hofherr

In memoriam

Jadranka Raičević
1960 – 2017

Table of Contents

Acknowledgments	11
Chapter 1 Introduction	19
1 Introduction.....	21
1.1 The scope of the thesis	22
1.2 The roadmap	24
Chapter 2 Acquisition path of distributive markers in Serbian and Dutch – evidence from an act-out task.....	27
1 Introduction.....	29
2 Background.....	30
2.1 Acquisition of distributive key and distributive share markers	30
2.1.1 NQEs and scope.....	31
2.1.2 NQEs and <i>po</i>	34
2.1.3 NQEs and morphosyntactic marking	36
2.1.4 <i>Svaki</i> and <i>po</i> – individually exhaustive readings.....	37
2.2 Using a new task.....	39
3 Act-out task with Serbian and Dutch children.....	39
3.1 Method.....	40
3.2 Results	43
3.2.1 Adult results.....	43
3.2.2 Child results.....	44
3.2.2.1 Distributive answers	44
3.2.2.2 Collective answers.....	45
3.2.2.3 Cumulative (1-to-1) answers.....	46
4 Discussion of the results	47
4.1 Being adult-like.....	47
4.2 The role of pragmatics	50
4.3 Late acquisition of <i>svaki</i> and <i>po</i>	52
4.3.1 Additional meanings of <i>po</i>	54
5 Conclusion	56
Chapter 3 Dancing monkeys in Serbian and Korean – exhaustivity requirements on distributive share markers	59
1 Introduction.....	61
2 Distributive share vs. Distributive key markers across languages.....	62
2.1 Distributive share markers as distributive universal quantifiers	64
2.2 Distributive share markers as event plurality markers	68
2.2.1 Lack of atomicity and exhaustivity requirements.....	71
3 Testing exhaustivity requirements with spatial event distribution	73
3.1 Experiment 1.....	74

3.1.1 Method and design	75
3.1.2 Predictions	76
3.1.3 Results.....	77
3.1.4 Discussion.....	78
3.2 Experiment 2.....	79
3.2.1 Method and design	79
3.2.2 Predictions	79
3.2.3 Results.....	80
3.2.4 Discussion.....	81
4 General Discussion	82
4.1 Distribution over pluralities of non-atomic individuals ...	83
4.1.1 Distribution over spatio/temporal locations.....	86
5 Conclusion	87

Chapter 4 Exhaustivity and homogeneity effects with distributive

share markers – experimental evidence from Serbian <i>po</i>	91
1 Introduction.....	93
2 Background	94
2.1 Experimentally testing exhaustivity: Previous findings	98
2.2 Experimentally testing exhaustivity in transitive sentences: Overt subject arguments as DistKeys.....	100
3 Experiment 1 – Transitive sentences with <i>po</i>	101
3.1 Method and procedure	101
3.2 Results Experiment 1	103
3.3 Discussion of Experiment 1	107
4 Experiment 2 – Forced definite interpretation of the Subject.....	108
4.1 Method and procedure	109
4.2 Results Experiment 2	111
4.3 Discussion of Experiment 2	112
5 Experiment 3 – Maximality vs. Exhaustivity: Homogeneity effects with <i>po</i>.....	113
5.1 Method and procedure	116
5.2 Results Experiment 3	118
5.3 Discussion of Experiment 3	120
6 Conclusions and Open Questions	121

Chapter 5 Non-exhaustive *po*. Event plurality marker or group-

forming device?.....	127
1 Introduction.....	129
2 Event plurality vs. Group-forming device	130
2.1 Plurality of events.....	131
2.1.1 Cable vs. Knežević	132
2.2 Group-forming device.....	134
2.2.1 Korean <i>-ssik</i> – type-lifting to group-forming.....	134
2.2.2 NP-internal distributive readings	137
2.2.3 Counterarguments to the group-forming analysis..	138

3 Spatial distribution, revisited	140
3.1 Individuating and counting events	140
3.2 Differentiation condition.....	143
3.3 (Non-)overlapping dimensions	144
4 Single-event readings with DistShare markers	146
4.1 Possible counterexamples to the event plurality analysis – once-only predicates.....	149
4.2 Directionality of change – exhaustive and non- exhaustive <i>po</i>	150
5 Conclusion	151
 Chapter 6 Conclusions and future work.....	155
1 Overview	157
2 Unsolved puzzles for future research	160
2.1 <i>Svaki+po</i>	160
2.2 Homogeneity and non-atomic readings.....	162
2.3 Temporal distribution and covariation.....	163
2.4 NP-internal distributive and cumulative readings.....	164
 Appendices	166
Chapter 2.....	166
Appendix A	166
Appendix B.....	167
Appendix C.....	167
Appendix D	167
Appendix E.....	168
Chapter 3.....	169
Appendix A	169
Appendix B.....	170
Chapter 4.....	171
Appendix A	171
Appendix B.....	172
Appendix C.....	172
 References	174
 Summary	181
Samenvatting	187
Résumé.....	194
