Cover

Op de voorkant van dit proefschrift staat een afbeelding van een schilderij van Grietje van der Zee -Visser (1925-2019). Het schilderij laat een winters tafereel zien: een landschap bedekt met verse sneeuw en een dichtgevroren water waar slechts een enkel persoon overheen geschaatst is. Om deze reden is dit schilderij gekozen. Het doen van onderzoek is als het schaatsen op natuurijs. Het gevoel om de eerste te zijn op glad en onontdekt ijs is bijzonder; ondanks dat je je op dun ijs kunt begeven.
