Sensing dengue and chikungunya virus (co-) infections

José Alberto Aguilar Briseño

The research presented in this thesis was conducted at the Department of Medical Microbiology and Infection Prevention of the University Medical Center Groningen within the Groningen University Institute for Drug Exploration (GUIDE), University of Groningen, Groningen, the Netherlands.

Part of this work has been supported by the NWO-Veni grant, the Research grant 2019 from the European Society of Clinical Microbiology and Infectious Diseases (ECSMID), the Jan Kornelis de Kock foundation (Groningen) and Consejo Nacional de Ciencia y Tecnología (CONACYT, México)

The printing of this thesis was financially supported by the University of Groningen and the Graduate School of Medical Sciences.

Sensing dengue and chikungunya virus (co-) infections

PhD Thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on

Monday 5 July 2021 at 14:30 hours

by

José Alberto Aguilar Briseño

born on 3 December 1986
in San Luis Potosí, Mexico

Supervisor

Prof. J.M. Smit

Co-supervisor

Dr. I.A. Rodenhuis-Zybert

Assessment Committee

Prof. A. Kohl

Prof. A. van der Ven

Prof. P. Heeringa

Paranymphs

Amrita Singh

César Israel Oyarce Díaz

Table of contents

Chapter 1	Introduction and scope of the thesis	9
Chapter 2	Suppression of chikungunya virus replication and differential innate responses of human peripheral blood mononuclear cells during co-infection with dengue virus	37
Chapter 3	Rewiring PBMC responses to prevent CHIKV infection-specific monocyte subset redistribution and cytokine responses	63
Chapter 4	TLR2 on blood monocytes senses dengue virus infection and its expression correlates with disease pathogenesis	87
Chapter 5	Immature dengue virus particles trigger innate immune responses in peripheral blood mononuclear cells through TLR2/TLR6/CD14 signaling axis	139
Chapter 6	Summarizing discussion	171
Appendix		
	Nederlandse samenvatting	196
	Acknowledgements	199
	Curriculum Vitae	202
	List of publications	203

Para mi querida madre
