Prof. dr. M.H. Nauta

Table of contents

Chapter 1.	7
General introduction	
Chapter 2.	27
Clinical precursors of tics: An EMTICS study	
Chapter 3.	65
The Premonitory Urge for Tics Scale in a large sample of children and adolescents: Psychometric properties in a developmental context. An EMTICS study	
Chapter 4.	99
Executive function in children with Tourette syndrome and attention- deficit/hyperactivity disorder: Cross-disorder or unique impairments?	
Chapter 5.	129
Impaired response inhibition during a stop-signal task in children with Tourette syndrome is related to ADHD symptoms: A functional magnetic resonance imaging study	
Chapter 6.	157
A graph theory study of resting-state functional connectivity in children with Tourette syndrome	
Chapter 7.	183
Summary and general discussion	
Appendices	
Appendix 1. Internationale samenwerking geeft nieuwe impulsen aan Tourette onderzoek	208
Appendix 2. Nederlandse samenvatting	215
Appendix 3. Propositions	221
Appendix 4. Acknowledgements (dankwoord)	222
Appendix 5. Curriculum vitae	223
