Chapter overview

Chapter 1	General introduction	7
Part I: Empirical network studies and methodological challenges		29
Chapter 2	Cross-sectional networks of depressive symptoms before and after antidepressant medication treatment	31
Chapter 3:	Exploring the emotional dynamics of mildly depressed individuals with and without anhedonia	57
Chapter 4	Can we jump from cross-sectional to dynamic interpretations of networks? Implications for the network perspective in psychiatry	89
Chapter 5	A narrative review of network studies in depression: Why distinguishing between timescales and methodologies is important	97
Part II: Insights on the utility of ecological momentary assessment for clinical practice		133
Chapter 6:	Experience sampling and ecological momentary assessment studies in psychopharmacology: A systematic review	135
Chapter 7	Insights from patients and clinicians on the promise of the experience sampling method for psychiatric care	163
Chapter 8	Recommendations for the use of long-term experience sampling in bipolar disorder care: A qualitative study of patient and clinician experiences	187
Chapter 9:	Anticipating shifts to mania and depression in patients with bipolar disorder using early warning signals	227
Chapter 10	General summary and discussion	261
