The clinical pharmacist improves pharmacotherapy in hospital patients

Medication reviews – Metformin toxicity – Binding interactions

Proefschrift

ter verkrijging van de graad van doctor aan de
 Rijksuniversiteit Groningen
 op gezag van de
 rector magnificus prof. dr. C. Wijmenga
 en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

vrijdag 26 november 2021 om 14.30 uur

door

Inge Regina Francina van de Laar

geboren op 10 november 1974
 te Gemert

Promotores

Prof. dr. F.G.A. Jansman

Prof. dr. K. Taxis

Beoordelingscommissie

Prof. dr. T. van Gelder

Prof. dr. D.J. Touw

Prof. dr. P.M.L.A. van den Bemt

Contents

Chapter 1 General introduction

Part 1 Medication reviews

Chapter 2 Pharmacist-led medication reviews in predialysis and dialysis patients

Chapter 3 Prevalence and follow-up of Potentially Inappropriate Medication and Potentially Omitted Medication in older patients with cancer – the PIM POM study

Part 2 Metformin toxicity

Chapter 4 Metformin associated lactic acidosis: incidence and clinical correlation with metformin serum concentration measurements

Chapter 5 Identifying patients with metformin associated lactic acidosis in the emergency department

Chapter 6 Extracorporeal treatment of metformin associated lactic acidosis in clinical practice: a retrospective cohort study

Part 3 Binding interactions

Chapter 7 Subtherapeutic serum quetiapine concentrations after absorption inhibition by binding resins: a case report

Chapter 8 Exploring co-dispensed drug use in patients on sevelamer or polystyrene sulfonate to identify potential new binding interactions: a cross sectional in silico study

Chapter 9 Binding interactions with sevelamer and polystyrene sulfonate in vitro

Chapter 10 Assessing the binding interaction of polystyrene sulfonate with amitriptyline in healthy volunteers: the BIND study

Chapter 11 General discussion and perspectives

Appendices
