Causes and consequences of natural variation in maternal thyroid hormones in avian eggs

This research in this thesis was carried out in the Department of Biology, University of Turku, Finland

and in the Evolutionary Genetics, Development and Behaviour (EGDB) group at the Groningen Institute for Evolutionary Life Sciences (GELIFES), University of Groningen, The Netherlands.

This research was supported by the Academy of Finland, the Finnish National Agency for Education (CIMO Fellowship), the Societas pro Fauna et Flora Fennica, the Turku University Foundation, the Doctoral Programme in Biology, Geography and Geology (University of Turku), and by the University of Groningen.

UNIVERSITY
 OF TURKU

Causes and consequences of natural variation in maternal thyroid hormones in avian eggs

PhD thesis

to obtain the degree of PhD of the
 University of Groningen
 on the authority of the
 Rector Magnificus Prof. C. Wijmenga
 and in accordance with
 the decision by the College of Deans

and

to obtain the degree of PhD of the
 University of Turku
 on the authority of the
 Vice Dean Juha-Pekka Salminen
 and in accordance with
 the Faculty council of the Faculty of Science

Double PhD degree

This thesis will be defended in public on

Friday 22 October 2021 at 16:15 hours

by

Tom Sarraude

born on 1 August, 1991
 in Bayonne, France

Supervisors

Dr. Suvi Ruuskanen

Prof. A.G.G. Groothuis

Assessment committee

Prof. K. A. Spencer

Prof. O. Chastel

Prof. J. Komdeur

Prof. T. Laaksonen

The originality of this publication has been checked in accordance with the University of Turku quality assurance system using the Turnitin OriginalityCheck service.

Table of Contents

Chapter 1.....	7
General introduction, aims and methods, general discussion and synthesis	
Chapter 2.....	33
Is maternal thyroid hormone deposition subject to a trade-off between self and egg because of iodine? An experimental study in rock pigeon.....	
Chapter 3.....	55
Testing different forms of regulation of yolk thyroid hormone transfer in pied flycatchers.....	
Chapter 4.....	69
Testing the short- and long-term effects of elevated prenatal exposure to different forms of thyroid hormones.....	
Chapter 5.....	103
Manipulation of prenatal thyroid hormones does not affect growth or physiology in nestling pied flycatchers
