Modulating the Activity of CRISPR/Cas9

Genome Editing by Small Molecules

Siwei Chen

2021

The research described in this thesis was carried out in the Department of Chemical and Pharmaceutical Biology (Groningen Research Institute of Pharmacy, University of Groningen, The Netherlands) and was finally supported by the China Scholarship Council.

The research work was carried out according to the requirements of Graduate School of Science, Faculty of Science and Engineering, University of Groningen, The Netherlands.

Printing of this thesis was financially supported by the University Library and Graduate School of Science, Faculty of Science and Engineering, University of Groningen, The Netherlands.
