Adipose tissue stromal vascular fraction

Redrawing the lines

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. C. Wijmenga
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

woensdag 20 oktober 2021 om 16.15 uur

door

Joris Anton van Dongen

geboren op 25 februari 1993
te Roosendaal en Nispen

Promotores

Prof. dr. M.C. Harmsen

Prof. dr. B. van der Lei

Copromotor

Dr. H.P.J.D. Stevens

Beoordelingscommissie

Prof. dr. F.K.L. Spijkervet

Prof. dr. J.H. Coert

Prof. dr. U. Mirastschijski

Paranimfen

Drs. B.M. Eyck

Drs. S.S. Plat

Contents

<i>Chapter 1</i>	General introduction and outline of the thesis <i>Adapted from: Facial Plastic Surgery 2019</i>	9
------------------	--	---

Part I: Isolation procedures of stromal vascular fraction

<i>Chapter 2</i>	Comparison of intraoperative procedures for isolation of clinical grade stromal vascular fraction for regenerative purposes: a systematic review <i>Journal of Tissue Engineering and Regenerative Medicine 2018</i>	25
<i>Chapter 3</i>	The fractionation of adipose tissue procedure to obtain stromal vascular fractions for regenerative purposes <i>Wound Repair and Regeneration 2016</i>	65
<i>Chapter 4</i>	Fractionation of adipose tissue procedure with an disposable one-hole fractionator <i>Aesthetic Surgery Journal 2020</i>	89
<i>Chapter 5</i>	Mechanically isolated tissue-stromal vascular fraction acts anti-inflammatory on chondrocytes <i>in vitro</i> <i>Submitted to Journal of Tissue Engineering and Regenerative Medicine 2021</i>	103
<i>Chapter 6</i>	Isolation of stromal vascular fraction by fractionation of adipose tissue <i>Methods in Molecular Biology 2019</i>	125

Part II: Adipose tissue and skin rejuvenation

<i>Chapter 7</i>	The power of fat and its adipose-derived stromal cells: emerging concepts for fibrotic scar treatment <i>Journal of Tissue Engineering and Regenerative Medicine 2017</i>	147
<i>Chapter 8</i>	Tissue stromal vascular fraction as a treatment for scar remodeling: a multicenter, double-blinded, placebo-controlled, randomized trial <i>In preparation</i>	183

<i>Chapter 9</i>	The addition of platelet-rich plasma to facial lipofilling: a double-blinded, placebo-controlled, randomized trial <i>Plastic and Reconstructive Surgery 2018</i>	199
<i>Chapter 10</i>	The addition of tissue stromal vascular fraction to facial lipofilling in combination with platelet-rich plasma: a double-blinded, placebo-controlled, randomized trial <i>Aesthetic Surgery Journal 2021</i>	223
<i>Chapter 11</i>	The effects of facial lipografting on skin quality: a systematic review <i>Plastic and Reconstructive Surgery 2019</i>	247

Part III: Regenerative components of stromal vascular fraction

<i>Chapter 12</i>	Adipose tissue-derived extracellular matrix hydrogels as a release platform for secreted paracrine factors <i>Journal of Tissue Engineering and Regenerative Medicine 2019</i>	279
<i>Chapter 13</i>	Adipose tissue-derived extracellular matrix hydrogels and their use as 3D culture scaffold <i>Artificial cells, Nanomedicine and Biotechnology 2019</i>	307

Discussion and summary

<i>Chapter 14</i>	General discussion and future perspectives	327
<i>Chapter 15</i>	English summary	343
