Genetic and environmental correlates of Tourette Syndrome

PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on
Monday 8 November 2021 at 11.00 hours

by

Mohamed Abdulkadir

born on 15 June 1986
in Mogadishu, Somalia

Supervisors

CONTENTS

Chapter 1 General introduction	9
Chapter 2 Investigation of previously implicated genetic variants in chronic tic disorders: a transmission disequilibrium test approach	21
Chapter 3 Polygenic risk scores derived from a Tourette syndrome GWAS predict presence of tics in the Avon Longitudinal Study of Parents and Children (ALSPAC) cohort	65
Chapter 4 Pre- and perinatal complications in relation to Tourette syndrome and co-occurring obsessive-compulsive disorder and attention-deficit/hyperactivity disorder	89
Chapter 5 Investigation of gene-environment interactions in relation to tic severity	117
Chapter 6 Polygenic and environmental determinants of tics in the Avon Longitudinal Study of Parents and Children cohort	141
Chapter 7 General Discussion	167
Appendices 	183
Nederlandse wetenschappelijke samenvatting	184
Dankwoord / Acknowledgements	186
About the author	187
