Drivers of cooperative breeding and population dynamics in Seychelles warblers

---

Michela Busana

The research presented in this thesis was conducted at the Behavioural and Physiological Ecology group, Groningen institute for Evolutionary Life Sciences, University of Groningen, The Netherlands.

This study has received fundings from the *Nederlandse Organisatie voor Wetenschappelijk Onderzoek* (grant 854.11.003); the Academy Ecology Fund (dossier 0205510763) and the Academy Fund for Behavioural Research (dossier 0205510782) at the *Koninklijke Nederlandse Akademie van Wetenschappen*.

Printing of this thesis was supported by the University of Groningen.

Layout: Michela Busana

Photos: Michela Busana (MB), Leticia Lopera Doblaz (LLD), April J Burt (AJB), Martijn Hammers (MH), Charlie Davies (CD).

Cover design: Michela Busana, inspired by a picture by Charlie Davies.

Printed by: Gildeprint.

Drivers of cooperative breeding and population dynamics in Seychelles warblers

PhD thesis

to obtain the degree of PhD at the
University of Groningen on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on

Friday 19 November 2021 at 9.00 hours

by

Michela Busana

born on 05 January, 1984
in Arzignano, Italy

Supervisors

Prof. J. Komdeur

Prof. H.L. Dugdale

Prof. T.A. Burke

Prof. D.S. Richardson

Assessment Committee

Prof. L.E.B. Kruuk

Prof. J.M. Gaillard

Prof. I.R. Pen

Contents

1	General introduction	1
2	Population level consequences of facultatively cooperative behaviour in a stochastic environment	25
3	On the applicability of structural equation modelling in evolutionary ecology and life-history evolution	57
4	Direct and indirect causal effects of multiple traits on survival and reproduction of breeding females	85
5	Structural equation modeling reveals determinants of fitness in a cooperatively breeding bird	113
6	Synthesis	143
A	Appendix to Chapter 2	159
B	Appendix B to Chapter 3	241
C	Appendix C to Chapter 3	253
D	Appendix to Chapter 4	267
E	Appendix to Chapter 5	283
	Bibliography	315
	Samenvatting	347
	Acknowledgements	353
	List of co-authors	359
