PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on

Tuesday 18 January 2022 at 14:30 hours

by

Qian Chen

born on 5 June 1987
in Shandong, China

Supervisors

Prof. J.T.M. Elzenga

Prof. J.D. van Elsas

Assessment Committee

Prof. J. Falcão Salles

Prof. W. de Boer

Prof. G. A. Kowalchuk

Contents

Chapter 1

General Introduction	7
----------------------	---

Chapter 2

Effect of soil bacteriomes on mycorrhizal colonization by <i>Rhizophagus irregularis</i> —interactive effects on maize (<i>Zea mays</i> L.) growth under salt stress	19
---	----

Chapter 3

The influence of <i>Rhizophagus irregularis</i> on the distribution of bacteriomes in the rhizosphere of maize is affected by salt stress	37
---	----

Chapter 4

Rhizosphere bacteriomes in maize—Effects of <i>Rhizophagus irregularis</i> and salt stress over time and across generations	57
---	----

Chapter 5

General discussion and outlook	89
