**Native parasitoids and a novel invasive host: linking evolutionary
ecology and biological pest control**

Astrid Kruitwagen

This research has been carried out at the Groningen Institute for Evolutionary Life Sciences (GELIFES) of the University of Groningen (The Netherlands), according to the requirements of the Graduate school of Science (Faculty of Science and Engineering, University of Groningen).

This research was financed under the research program Green No. ALWGR.2015.6, by the Netherlands Organisation for Scientific Research (NWO) and Koppert Biological Systems.
