RIJKSUNIVERSITEIT GRONINGEN

Microbial ecology at the International Space Station

The use of rapid and easy molecular methods for the quantitative
detection of bacteria

Proefschrift

ter verkrijging van het doctoraat in de
Medische Wetenschappen
aan de Rijksuniversiteit Groningen
op gezag van de
Rector Magnificus, dr. E. Sterken,
in het openbaar te verdedigen op
woensdag 26 oktober 2011
om 14.30 uur

door

Sandra Pauline van Tongeren

geboren op 30 juni 1967

te Groningen

Promotor: Prof. dr. J. E. Degener

Copromotor: Dr. ir. H. J. M. Harmsen

Beoordelingscommissie: Prof. dr. A. van Belkum
Prof. dr. H. C. van der Mei
Prof. dr. P. H. M. Savelkoul

Paranimfen:

Hans E. van Tongeren

Alida C. M. Veloo

Table of contents

Chapter 1	General Introduction Based on <i>Microgravity Sci Technol</i> (2007). 19:45-48	9
Chapter 2	Sampling system comparison for the quantitative recovery of bacterial DNA from solid surfaces. <i>Manuscript submitted for publication</i>	17
Chapter 3	Comparison of three rapid and easy bacterial DNA extraction methods for use with quantitative real-time PCR. <i>Eur J Clin Microbiol Infect Dis</i> (2011) 30:1053-1061. DOI: 10.1007/s10096-011-1191-4	29
Chapter 4	The <i>Staphylococcus aureus</i> sampling effect: differences in DNA extraction yield under different physiological circumstances <i>Manuscript submitted for publication</i>	45
Chapter 5	Spaceflight conditions cause major shifts in human microbiota numbers and composition <i>Manuscript submitted for publication</i>	53
Chapter 6	Microbial characterisation of interior surfaces of the International Space Station. <i>Manuscript submitted for publication</i>	81
Chapter 7	<i>Bacillus zvezdaensis</i> sp. nov., isolated from the <i>International Space Station</i> <i>Manuscript submitted for publication</i>	97
Chapter 8	<i>Bacillus anthracis</i> -like bacteria and other <i>B. cereus</i> group members in a microbial community within the International Space Station: a challenge for rapid and easy molecular detection of virulent <i>B. anthracis</i> <i>Manuscript submitted for publication</i>	119
Chapter 9	Summary and General Discussion	133
	Nederlandse Samenvatting en Algemene Discussie	143
	Acknowledgements (Dankwoord)	151
	List of publications	153
	List of abbreviations	154
