Iron Deficiency and Erythropoietin Excess: Two Sides of the Same Coin?

Studies in Patients with Chronic Kidney Disease and in the General Population

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. C. Wijmenga
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

woensdag 30 oktober 2019 om 16.15 uur

door

Michele Freerk Eisenga

geboren op 8 juni 1988
te Assen

Promotores

Prof. dr. S.J.L. Bakker

Prof. dr. C.A.J.M. Gaillard

Beoordelingscommissie

Prof. dr. I.C. Macdougall

Prof. dr. D.W. Swinkels

TABLE OF CONTENTS

Chapter 1	Introduction	9
------------------	--------------	---

Iron

Chapter 2	Iron Deficiency, Anemia, and Mortality in Renal Transplant Recipients <i>Transplant International 2016; 29: 1176-1183</i>	29
Chapter 3	C-Terminal Fibroblast Growth Factor 23, Iron Deficiency, and Mortality in Renal Transplant Recipients <i>Journal of the American Society of Nephrology 2017;28:3639-3646</i>	45
Chapter 4	Associations of Different Iron Deficiency Cutoffs with Adverse Outcomes in Chronic Kidney Disease <i>BMC Nephrology 2018; 19: 225</i>	63
Chapter 5	Association of Hepcidin-25 with Survival after Kidney Transplantation <i>European Journal of Clinical Investigation 2016; 46: 994-1001</i>	89

Erythropoietin

Chapter 6	Effects of Erythropoietin on Fibroblast Growth Factor 23 in Mice and Humans <i>Nephrology Dialysis Transplantation 2018: Epub ahead of print</i>	105
Chapter 7	Erythropoietin, Fibroblast Growth Factor 23, and Mortality in Kidney Transplant Recipients <i>Submitted</i>	139
Chapter 8	Epoetin Beta and C-Terminal Fibroblast Growth Factor 23 in Patients with Chronic Heart Failure and Chronic Kidney Disease <i>Journal of the American Heart Association 2019; 8(16):e011130</i>	157

Iron and Erythropoietin beyond CKD

Chapter 9	Iron Deficiency, Elevated Erythropoietin, Fibroblast Growth Factor 23 and Mortality in the General Population of the Netherlands: a Cohort Study <i>PLOS Medicine 2019;16(6):e1002818</i>	173
Chapter 10	Active Smoking and Hematocrit and Fasting Circulating Erythropoietin Concentrations in the General Population <i>Mayo Clinic Proceedings 2018; 93: 337-343</i>	193

Chapter 11	Rationale and Design of TransplantLines: a Prospective Cohort Study and Biobank of Solid Organ Transplant Recipients <i>BMJ Open 2018; 8: e024502</i>	207
Chapter 12	Summary, discussion, and future perspectives	235
	Dutch summary / Nederlandse samenvatting	249
	Appendix (NtvG article)	259
	Acknowledgements / Dankwoord	273
	Author Affiliations	283
	About the author	291
	List of publications	295
