Monolayers and self-assembled bilayers on ITO for use in solar cells

A window of opportunity

Jane Kardula

Monolayers and self-assembled bilayers on ITO for use in solar cells. A window of opportunity

Jane Kardula
University of Groningen, Netherlands

The work described in this thesis was carried out in the research group Chemistry of (Bio) Molecular Materials and Devices which is part of Stratingh Institute for Chemistry and Zernike Institute for Advanced Materials at the University of Groningen, The Netherlands. This work is part of the research program of the Foundation for Fundamental Research on Matter (FOM), which is now part of the umbrella organisation Foundation for Dutch Scientific Research Institutes (NWO-I), supervised by the Dutch Research Council (NWO). This is a publication by the FOM Focus Group 'Next Generation Organic Photovoltaics', participating in the Dutch Institute for Fundamental Energy Research (DIFFER).

Monolayers and self-assembled bilayers on ITO for use in solar cells

A window of opportunity

PhD thesis

to obtain the degree of PhD at
 the University of Groningen
 on the authority of the
 Rector Magnificus Prof. J.M.A. Scherpen
 and in accordance with
 the decision by the College of Deans.

This thesis will be defended in public on

Tuesday 8 October 2024 at 16.15 hours

by

Jane Kardula

born on 30 December 1991
 in Skopje, Macedonia

Supervisors

Prof. R. C. Chiechi
Prof. J. C. Hummelen

Co-supervisor

Dr. R. W. A. Havenith

Assessment Committee

Prof. L. J. A. Koster
Prof. D. Vanderzande
Prof. A. J. Minnaard
