# **Development of Novel Molecules to Study Lipoxygenase Activity in Its Cellular Context**

**Hao Guo**  
 2020

The research described in this thesis was carried out in the Department of Chemical and Pharmaceutical Biology (Groningen Research Institute of Pharmacy, University of Groningen, The Netherlands) and was financially supported by the China Scholarship Council and the Netherlands Organization for Scientific Research (VIDI grant 016.122.302 and 723.014.008 to F.J.D. and A.K.H.H., respectively.).

The research work was carried out according to the requirements of the Graduate School of Science Faculty of Science and Engineering, University of Groningen, The Netherlands.

Printing of this thesis was financially supported by the University Library and the Graduate School of Science, Faculty of Science and Engineering, University of Groningen, The Netherlands.

Cover design: Hao Guo and Tingting Sun

Printing: Ridderprint

ISBN: 978-94-6375-794-2

Electronic ISBN: 978-94-6375-798-0

# **Development of Novel Molecules to Study Lipoxygenase Activity in Its Cellular Context**

**PhD thesis**

to obtain the degree of PhD at the  
 University of Groningen  
 on the authority of the  
 Rector Magnificusrof. C. Wijmenga  
 and in accordance with  
 the decision by the College of Deans.

This thesis will be defended in public on

Monday 2 March 2020 at 12.45 hours

by

**Hao Guo**

born on 13 August 1990  
 in Xinjiang, China

## **Supervisors**

Prof. F.J. Dekker  
Prof. H.J. Haisma

## **Assessment Committee**

Prof. M.R. Groves  
Prof. M.D. Witte  
Prof. N.I. Martin

To dare is to lose one's footing momentarily. Not to  
dare is to lose oneself.

Søren Aabye Kierkegaard (1813 – 1855, Danish philosopher)

## Table of Contents

Chapter 1	Introduction and Scope of the Thesis	9
<b>Part 1 – Development of novel 15-LOX-1 inhibitors</b>		
Chapter 2	Photoactivation Provides a Mechanistic Explanation for Pan-assay Interference Behaviour of 2-Aminopyrroles in Lipoxygenase Inhibition	29
Chapter 3	A Novel 15-Lipoxygenase-1 Inhibitor Protects Macrophages from Lipopolysaccharides-Induced Cytotoxicity	75
<b>Part 2 – Combination of inhibition and detection of 15-LOX-1</b>		
Chapter 4	Inhibition and Detection: Novel 15-Lipoxygenase-1 Inhibitor and Activity-Based Probe	123
<b>Part 3 – Summary and Future perspectives</b>		
Chapter 5	Summary and Future perspectives	167
<b>Samenvatting</b>	Nederlandse Samenvatting	177
<b>Appendices</b>		
	List of Publications	188
	About author	189
	About cover	190
	Acknowledgements	191
