# Acknowledgments

I would like to express my gratitude to the Posgrado en Ciencias Biológicas at the Universidad Nacional Autónoma de México (UNAM) and to the University of Groningen (UG) for allowing me to develop as a professional and as a doctor in science.

I thank the Consejo Nacional de Humanidades, Ciencias y Tecnologías (CONAHCYT) for the doctoral scholarship awarded (CVU: 779007), which enabled me to complete my studies.

I am grateful to the University of Groningen for the financial support granted under registration number 59573-220-18-II-22 and for the Individual Training Budget (ITB) that allowed me to access courses and conferences.

I appreciate the support of the Coordinación General de Estudios de Posgrado (CGEP) and the scholarship for *Actividades Académicas Nacionales o Internacionales de Larga Duración* for a double degree in collaboration with the University of Groningen.

I also thank the Programa de Apoyo a Proyectos de Investigación en Innovación Tecnológica (UNAM DGAPA-PAPIIT) for the support through projects IN213424 and IN214621.

I extend my gratitude to my Principal Tutor at UNAM Dr. Adolfo G. Navarro Sigüenza for your support, academic teachings and valuable advice.

I deeply thank my Principal Tutor at the University of Groningen Prof. Dr. Rampal S. Etienne for our academic discussions and for helping me face new challenges.

I am grateful to my tutor committee members Dra. Alicia Mastretta Yanes and Dr. Luis A. Sánchez González, for their invaluable advice and comments during the development of this project.

I would also like to thank the staff of the Division de Estudios de Posgrado, particularly Lilia Espinosa, Patricia Oliva, Erika and Dr. Ernesto, for their patience and administrative support over the years.

I express my appreciation to my assessment committee members, Prof. Dr. María del Coro Arizmendi, Prof. Dr. Borja Milá, Prof. Dr. Christian Both, and Prof. Dr. William Gosling.

I also thank my *Candidatura* examination committee members, Dr., Alicia Mastretta, Dr., Luis Eguiarte, Dr., Angela Cuervo, Dr., Alejandra Moreno and Dr., David Gernandt.

To Corine (PhD coordinator) at TRES, thank you for your support and assistance with paperwork and procedures.

I appreciate the administrative staff of TRES, especially Ingeborg and Tineke, for their help with organization and paperwork.

To those in charge of the Habrock cluster at UG, and to the University for facilitating its use.

I am grateful to the professors who have given me the opportunity to participate in their courses.

A nivel personal quisiera agradecer primeramente a mi familia, Verónica, Carlos, Antonio, Mariana y Danna, gracias por su apoyo y cariño y por enseñarme el valor de las cosas importantes de la vida.

A inquilino, benis, firus, anamile, rudy y lola. Los integrantes de la familia que pudimos escoger. Lizeth, thank you for your comforting company, your warm support, and for making every moment a meaningful experience.

Doctor Adolfo, thank you for allowing me to be part of your work group. It was a very rewarding experience. I also appreciate your talks, advice, and consultations.

Rampal, thank you for giving me the opportunity to work in your group. It was an unforgettable experience.

Luis (How), thank you for always making time to answer questions and engage discussions.

To the members of the Museum of Zoology who have come and gone in recent years: Ale, Alex, Israel, Orlando, Tapatío, Aura, Beto, Manolo, Pepe, Alejandra, Marco, Violeta, Fer, Rein, Rodo, Jorge and Mayte. Thank you for making work enjoyable and for all the good times.

To the members of TRES, thank you for the camaraderie and the meetings.

To my fellow Mexicans, Aaron, Dinorah, Brenda, Rubí, Lilí, Diego, Emanuel, and Analau, thank you for the good times and for the warmth of your company.

To the people from the Etienne Lab: Yang, Pedro, Raph, Theo, Shu, Tianjian, Ornela, Josh, Joris, Amandine, and Thijs. I am grateful to have met you. I learned from you, not just as extraordinary scientists, but also as amazing individuals.

Pedro, I appreciate your patience and warmth, and for always taking the time to answer my naive questions.

Ralph, among the many good qualities you have as a scientist and a person, I especially admire your enthusiasm and energy for everything.

Theo, you left too soon, but it was a pleasure to share time with you.

Shu, thank you for sharing your amazing cooking skills and for always having supportive words.

Ornela, I learn from your commitment and perseverance, I also appreciate the talks we had.

Carol, I will never forget the things you did for me. I could not have survived my first week in the Netherlands without your companionship, help, advice, and loans. I hope to have learned something from your bravery.

Yang, my dear bro, I have learned so much from you, your thoughts, emotions, and actions are truly inspiring. Thanks for hearing me, deciphering my feelings, feeding and pushing me, and especially for your beautiful company.
