Acknowledgement 致谢

Wow, what a journey! It took me long time to start this acknowledgement part. It is never easy to say goodbye, but it is time to do so. When I recall what has happened during these years, many images come to my mind. Even though there is only my name on the cover of this thesis, I cannot finish this without help of a lot of peoples. Hereby I would like to express my gratitude to all of them.

Cor, my first promoter, for sure, to abundantly express my gratitude to you will take pages, but I ought to keep it short here. When I was a master student in Shanghai, I saw your name many times on different scientific papers about polymer chemistry. I feel so blessed to have you as my supervisor in Groningen. I am always in awe of your fantastic ideas and dedication to science. You taught me how to not only think but also perform studies in a critical way. (Doing research) From easy to difficult part, is the first lesson I took from you. In the very beginning, I overlooked the importance of mechanistic study of esterification and thought performing polymerization directly will save us a lot of time. However, at the final stage of PhD, with the help of those knowledge, modification of some specific functional groups became very easy. In addition, you encouraged me both in scientific research and daily life. After the first progress meeting with other supervisors, you sent me a mail, telling me you are so proud of me. And you told me the same when my PhD journey was about to end. I know, among all those PhD students under your supervision during your whole professor career, I am not excellent as most of them. Your encouraging words do embolden me to be a better self. It is unforgettable memory you invited me to visit Covestro company. On that day, you picked me up at Zwolle center station at 7am and introduced me to all your colleagues. The study on that day really help me on the technique of synthesis of SAPs. Cor, thank you so much for everything you did for me during these years. I wish you will enjoy your retirement and if one day you will visit China, please let me know and I will do the honors.

Patrizio, much appreciated for agreeing with being my second promotor. Fruitful discussion with you is always inspiring, even though sometimes I thought my idea was brilliant but later on you proved it was absurd. I learnt a lot from your critical thinking during my PhD. Thank you for revising all manuscripts. And I will never forget our happy moments when Alex, you and me attended the BPC conference in France and of course the wonderful dinner and wines we had in that nice restaurant on the Rhine. Ciao!

My sincere gratitude will also go to my second co-promoter Prof. Francesco Picchioni. Francesco, as the leader of product technology group, you are always occupied with stuff. However, every time I asked for a progress meeting with you, your answer is always yes for which I am forever grateful. You gave me freedom to carry out my ideas and support me endlessly. And I am impressed by your Italian humor and your love for Mandarin. As promised, I will be your travel guide if you contact me when you attend some international conferences in China.

I would also like to thank my defense committee members: prof. Gert-Jan Gruter, Prof. Katja Loos, and

Prof. Ranjita Bose. Thank you for evaluating my thesis and providing valuable feedback.

This thesis won't be possible without the help from my collaborators from Covestro company and in our group. Theo, actually you can be listed as one of my supervisors because you almost joined every progress meeting and reviewed all manuscripts. Thank you so much for arranging all those measurements that can only be done in Zwolle and Waalwijk. Deelan, first of all, I want to say, your London accent is really great:) Thank you for your help with teaching me the typical procedure for synthesis of SAPs and doing the acid value measurement in Zwolle. I wish you all the best in Australia and UK. Bart, I am so appreciated that you took care of DMTA measurements which is a key technique for my research. To be honest, I have never seen such a professional report out of a university. Hats off to you! Ton, thank you for your kind help with GPC in Waalwijk. Jesse and Zeyu, thank you for taking care of biodegradability test in Groningen when I was absent. Tao, I am appreciated that you trust me to be your daily-supervisor for your master project and grateful for our adventurous exploration together and your contribution to this work. Wish you a bright future in China!

It is such a privilege to work with all the amazing people who make my PhD journey so colorful. Firstly, Special thanks to Raffalab members: Nicola, Alex, Jesse, Frank, Mattia, Zeyu, Zao, Soheila, Mirena, Antonino, Balint, Reinier, Floris, Fabrice, Connor, Tao, Tjon, Bart, Zhou, Davide. We had some fabulous moments, winning two medals in 4 Mijl of Groningen, having so many lovely nights, playing those fun games... Nicola, you are like a big brother, every time I asked you questions, you are so patient and kind. Alex, you are simply almighty! It seems like you know everything about polymer and chemistry. On every group meeting or international conferences, you can always raise questions and have comments. That impressed me a lot. It is so lucky to have you as the lab supervisor and lab mate. I can always turn to you for help. Thank you very much and all the best in your academia career! Jesse, you started your PhD one or two months before me, then there was something wrong with your contract and you started later. Anyway, since we started our PhD almost the same time and both worked with polycondensation, we had so many discussions about experiments and even performed some together. I am grateful for the little support system that we've built together and how we pulled each other through all sorts of difficulties. And because you are a local Groningenor, I asked you for suggestions for travelling and recreation many times. I am glad to hear that you already found a job in Groningen. All the best! Frank, we watched basketball game of Donar Groningen together (although lost to an Italian team), I will never forget that Italian sentence you taught me (ahahaha, you know what I mean). It is joyful to work and play with you. Take care, my man. Mattia, it will never escape me, the smell from your bottle when you walked along the corridor on 2nd floor with your chemicals. lol, just a joke. Thanks for all your help and nice jokes. Zeyu and Zao, thanks a lot for all kinds of help and accompany. Balint, wow, it is tough to exactly express my feeling to you, 'cuz you are a nice guy and different one. You are such a handsome boy that you can share with me a lot of your dating stories. You know, the work in the lab is boring sometimes, but your romantic stories do light up those moments. In addition, when I thought I encountered racist incidents, you encouraged me to defend my dignity. Thanks for everything! Floris and Fabrice, you guys are the most hard-working ones I have ever met. I mean it. You

always come to the lab earlier than anyone else (including PhDs) and seldom gossip in the lab. By the way, thank you for your nice Christmas gift (you even write my correct Chinese name)! Soheila, Mirana, Antonino, Reinier, Connor, Tao, Tjon, Bart, Zhou, Davide, I enjoyed so much of having you around. Thank you!

I spent 4 years doing PhD in ENTEG unit where I was surrounded with nice people. Geraldine, Kim and Marzia, thanks a lot for being such nice secretaries. I can always get help from you. I would also like to thank Henk, Marcel, Erwin, Gert-Jan, Leon for all kinds of technical supports. Special thanks to my former and recent officemates: Felipe, Afshin, Jing Li, Jing Chen, Anna, Jiazhao, Shuangxue, Zeyu, Jie. Thank you for providing harmonious environment. Sincere gratitude goes to all 210 lab mates: Alex, Zeyu, Zao, Frank, Lin, Chencong, Balint. Our lab is always clean and tidy due to your efforts. Thanks a lot! I would also like to thank all the rest of staff working on 1st and 2nd floor in building 5118 for making my life in the Uni enjoyable, Elchin, Giulia, Yizeng, Pablo, Nannan, Roelf, Roshan, Adrivit, Friso, Frederique, Guilherme, Yehan, Zhenchen, Daili, Yifei, Yanfei, Zhiwen, Zhenlei, Huaizhou, Tim, Corniek, Xiaoying, Wang, Shun, Wenze, Qingqing, Xiang, Yanyan, Jue, Jie...

嘿，弹指间在荷兰已经生活四年多了，这段经历会让我一生难忘。这几年的生活有太多的人需要感谢，他（她）们让我的留学生活丰富多彩，有些帮助了我的科研工作，有些给我的生活带来了乐趣，在此我向他（她）们表示发自内心的感谢。

乌老师，我觉得第一肯定是要感谢你。你带我步入了科研的殿堂，让我对科研有了自己的认识和标准要求。如果不是你一直支撑着我，带我选题、实验，可能我也不会顺利完成自己的硕士学业，自然也没有后面的博士阶段了。也非常感谢你帮我牵线联系我梦寐以求的导师 Cor，你时常说我是最幸运的，这么多博士生，Cor 对我这个关门弟子是最用心废神的，但其实我觉得是因为你们这些珠玉在前，所以 Cor 对我这么一个实力不是那么强的弟子才指导多一些，也正是有你们这些珠玉在前，我永远不害怕竞争，永远想做更好的自己。

王老师，非常感谢你全力支持我申请公派留学资格，你往日的教诲时常萦绕在我的脑海，做研究要深挖，争取要做自己领域的小专家，坚持久了，自然事情也就做成了事业。在此向王老师表示衷心的感谢。

义飞师兄，你是乌老师推荐给我认识的，也是我在还没到达荷兰之前认识的第一个师兄。非常感谢你和你老婆帮我找的房子，这让我非常顺畅地开始了荷兰生活。除此之外，在我刚进实验室时，也是你带我熟悉一切流程和规则。非常感谢你和师嫂，希望你们阖家欢乐，事业也越来越好！文泽师兄，哈哈，咱们还算是有缘的，你也是上海念的硕士，所以我们会比较有话聊，你对科研认真的态度还有勤奋上进的习惯，都让我获益良多。也非常感谢你几次在不方便的时候帮我取样。还有一些关于人际交往的建议，也让我避了很多雷，祝你以后的科研道路越走越顺，有机会可以再相逢。振辰师兄，你真的很厉害，不管是心态还是实力，我觉得都是最上乘的那一批。同时也要感谢你老

婆诗林姐，带我们开展了那么多的活动，还有在南京小聚的日子，跟你们在一起的时光真的非常开心。希望你们在南京能越来越好，快快乐乐的。代力师兄，我们还是老乡呢，你比较内向，我话也不多，可是我们就是能玩到一起去，永远忘不了疫情期间大家都被关在家里，你、振辰师兄、我还有其他几个人一起五黑打 Dota2 的时光。当然，在科研还有日常生活中你也给了我不少建议，你是一个很率真直接的人，谢谢你的建议，我们终会再见。志文师兄，虽然我们到毕业也没约上一顿饭（要么你不在，要么我不在），但是我是真的很佩服你，为了时间合理利用，你昼夜颠倒的作息居然持续了那么久，这是真的牛，祝愿你早日找到心仪的另一半，事业也更上一层楼。振磊师兄，谢谢你一些表征方法的帮助，还有同住一幢楼给予的生活上的帮助，祝你和你老婆一切顺利。怀舟师兄，说实话我们的交集不是很多，但是很感激在我刚到荷兰时，你愿意跟我共用通风橱甚至之后把整个通风橱都给我了，谢谢你。还有笑迎师兄、王珏师兄、方顺师兄和尹旺师兄，你们都是无比真诚的人，也是乐于助人的，非常谢谢你们的善意。

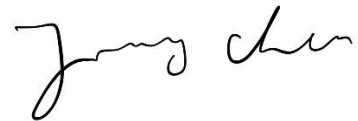

李婧师姐，在我进实验室的第一天，我就认识你了。你是一个很赞的人，有原则的人，你处事的方式我很喜欢，跟我很契合，你也像一个姐姐一样一直照顾着我，每次我心情不好时，即使我发了一条不开心的朋友圈，你也会来问我开导我。希望你跟你帅气的老公在荷兰生活开心快乐，如果有机会回国，我们再聚。兰姐和艳菲师姐，谢谢你们在生活上给我的许多帮助，还有自己蒸的包子，在异域他乡吃到这个真的难得阿。还有漂亮鱼（叶晗）师姐，哈哈，你真的太有趣了，每次不管是在学校吃饭，还是其他地方聚餐，你总有很多笑话和有意思的事情分享，祝你的教授生涯完美哈！也要谢谢陈静师姐，在我刚到办公室时，带我熟悉了很多东西，真诚地感谢你！

当然不能忘记我们“望周知”群里的兄弟们，自从师兄他们毕业了之后，我就成了实验室男生里最年长的了，这也是这个群的由来。靓仔，你是真的热爱运动和健身啊，也是真的热爱科研，如果有人统计考勤，我觉得你应该和文泽师兄并列实验室第一。在我离别之际，给你一点小小的建议，心态轻松一点，不要逼自己太紧。狄哥，非常感谢你对我扫描电镜测试的帮助，你真的非常靠谱，每次我有求，你都必应，respect！捷哥，本来我们是一个办公室的，后来你搬到楼下了，不过我们的交集还是挺多的，你也是一个非常靠谱有温度的人，还有你的厨艺也超级赞，基本和靓仔不分高低，牛的！泽宇，你算是在格村跟我关系非常近的同胞了，非常感谢你在困难的时候愿意向我敞开心扉，也非常感激你在这几年里给出的帮助还有关心，我觉得无需多言，回国后我们一定还是非常知心的朋友，到时我再在群里“望周知”了。钊哥，哇，说实话，当时你来办公室时，我休假在中国，所以后来也没有多熟，不过有缘的人终会再相聚，几次交往下来，我就知道你也是个无拘无束的人，做事全凭喜好，但是这样也无比真诚，非常感谢那些站在我身旁支持我的时刻。Be real！群里的最后一个早哥，帅啊早哥，你的照片拍得太棒了，厨艺也牛的，这么多次帮我取样送样就不说了，还有深夜一起出去拍星星的场景也历历在目，也提前感谢你给我毕业典礼拍的照，以后再回来湖北了，一起聚聚。非常感谢王婷师妹、维新师妹、霜雪师妹、王琳师妹、郭鸽师妹、楠楠师妹的一些帮助和关心。除了上述这些，还有很多实验室的同胞，可能因为我比较少言，所以我们的交集并不是很

多，但是身处他国，基本上大家都能守望相助，在此篇幅原因就不一一列举了，但是对你们的祝福是真心的，希望大家在荷兰都能获得自己想要的！

除了在学校，在荷兰也有一些朋友，我们在一起骑行一起划船一起聚餐一起拍照一起看球一起攀岩一起唱歌一起旅游，还有很多其他的活动和经历，这些经历我永远不会忘记，祝愿大家心想事成！

最后，我要感谢我的家人对我无尽的支持和理解。老陈，你的工具箱让我爱上了理工爱上了实践。袁书记，你对我不求回报的爱让我时刻勇敢。姐，希望你以后的工作生活顺利美满。秀姐，这么多年你对弟弟的关心从未停止，即使我老早就成年了。志哥，你在我要紧处的几步路上总是不断指引我，让我不偏航，我非常感激。叔父，老陈家的读书人始终在进步，我想这是跟你的期望相符的。还有我的舅舅、外婆、姑妈、姑伯、表姐、表哥、堂弟，你们永远是支持着我的力量。我爱你们，祝你们福寿绵长！在最后，我想感谢远在天国的爷爷，多少次我在梦里惊醒，伴着早已湿润的眼眶，无法忘记在广东离别时你年迈的眼泪。但我想，你一定会化作夜空里最亮的星，时刻注视着我吧！

陈敬樱
