Learning from reward and prediction

Insights in mechanisms related to recurrence vulnerability
and non-response in depression

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. C. Wijmenga
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

maandag 9 maart 2020 om 16.15 uur

door

Anna Jacoba Geugies

geboren op 20 maart 1986
te Sleen

Promotor

Prof. dr. R.A. Schoevers

Copromotor

Dr. H.G. Ruhé

Beoordelingscommissie

Prof. dr. ir. N.M. Maurits

Prof. dr. R.C. Oude Voshaar

Prof. dr. I. Tendolkar

Table of Content

Chapter 01	7
General Introduction	

Part I

Pathophysiological mechanism behind reward processing and reward-related learning

Chapter 02	21
Decreased reward circuit connectivity during reward anticipation in major depression	
<i>Manuscript submitted for publication</i>	

Chapter 03	39
Impaired reward-related learning signals in remitted unmedicated patients with recurrent depression	
<i>Brain 2019; 142(8): 2510-2522</i>	

Chapter 04	63
Aberrant aversive learning signals in the habenula in remitted unmedicated patients with recurrent depression	
<i>Manuscript submitted for publication</i>	

Part II

Prediction of response to treatment in mdd

Chapter 05	83
Validity of the Maudsley Staging Method in predicting treatment resistant depression outcome using the Netherlands Study of Depression and Anxiety	
<i>J Clin Psychiatry 2018; 79(1): 17m11475</i>	

Chapter 06	101
Decreased functional connectivity of the insula within the salience network as an indicator for prospective insufficient response to antidepressants	
<i>NeuroImage Clinical 2019; 24:102064.</i>	

Chapter 07	123
General discussion
