ACKNOWLEDGEMENTS

“If you want to make God laugh, tell him about your plans”. I definitely experienced this firsthand. Due to different, recondite and unexpected circumstances I found myself doing a PhD in Groningen, in the Netherlands. It was a challenging but at the same time unforgettable and significant time of my life that shaped me to who I am today. But my time in Groningen was filled not only with work but also with other activities and especially interactions with many amazing people:

Dr. Ykelien L. Boersma, I am very grateful for your mentoring and guidance during my PhD time. I will never forget our trip to Australia to the University of Melbourne. I sincerely appreciate your care about the group and all thematic dinners you have organized. Your variations of desserts were always outstanding and polished.

Prof. Wim J. Quax, thank you, as my degree promotor, for entrusting me with making my PhD project in the department. Your advice and time spent on discussions during the group meetings were always constructive and helpful.

Prof. J.M. van Dijk, Prof. M.R. Groves, Prof. U. Schwaneberg, thank you for taking the time to read my thesis and provide valuable input.

Prof. Frank J. Dekker, I want to thank you for all your accurate suggestions about the research work performed for the “inhibitors paper”. Discussions about enzyme inhibition were always very helpful and enabled me to understand this field of science much better.

Prof. Gerrit Poelarends, I admire your broad knowledge and your management skills as a group leader. Thank you for your comments and suggestions during the group meetings.

Prof. Hidde Haisma, I really enjoyed learning about your work and the work of your PhD students during the group meetings, it was always an interesting variation to the projects of the CFB group.

Prof. Sabeth Verpoorte, I am very grateful for the opportunity to meet you in Copenhagen at the kick off meeting of the ‘NanoBio4Trans’ project. You have made a great impression on me and You were the first person to tell me about the University of Groningen. Unexpectedly, you became my first indirect connection to my PhD life in Groningen.

Three Musketeers: Rita, Ronald and Pieter, you make a great team and no single problem encountered in our labs can beat you! I am very grateful for all the help I got from you with FACS, BIOVIA, HPLC and many more techniques. **Rita**, I am not able to count how much emotional support I received from You. I will be grateful forever!

Yvonne and Janita, thank you for all the administrative work, you were always understanding and friendly, even when a document was not properly filled out...

Dr. Tom Peat and Dr. Janet Newman (Tom and Janet), it was a great pleasure to meet you and thank you for your super warm hospitality in your home in Melbourne.
Dr. Daniel J. Scott, I truly appreciate your great help with the CHESS project and your fantastic and friendly welcome in your group in the Florey Institute in Melbourne.

Dr. Clemens Mayer, many many thanks for your friendly help in arranging my measurements on the CD spectroscope in your group.

Dr. Nikolaos Eleftheriadis, the “inhibitors paper” would have never come into existence without your help. I really enjoyed working with you, not only because of your passion to chemistry and research but also because of your infectious energy.

Martijn, I am very grateful for your help with the synthesis and characterization of molecules for the inhibitors project. Thank you for your and Fangyuan’s “modeling rescue” at the very last stage of the “inhibitors paper”.

Hannah, thanks to you, kinetics and enzyme inhibition studies became more clear to me. I truly admire your orderliness and passion for playing a violin.

Aline, thank you so much for your substantial help I received from you at the beginning of my PhD but also all the “coffee talks” and memorable trips.

Dr. Robbert Cool, I always enjoyed your positive and relaxed attitude in the group and of course your singing talent!

Marieke, Yannick, Mustafa, Marijke, Manon, Kübra, Susana, Amaury, Kamil, my dear students, thank you for your hard work, it greatly contributed to the final shape of my thesis and my personal development.

Aline, Ingrid, Jan-Ytzen, Harsh, Mehran, Linda, Christel, Hegar, Jane, Kim, Tjiekok, Zainal, Nikolaos, Thea, Marielena, my former colleagues, it was a great pleasure to meet you!

Xinyu, Yafeng, Jan, Ingy, Joko, Eleonora, Marie, Fabiola, Alex, Jielin, Lieuwe, Chao, Andreas, Haigen, Guangcai, Sekar, Saif, Saravanan, Michele, Olivia, Martijn, Hao, Bin, Fangyuen, Shanshan, Zhangping, Siwei, Petra, Roberta and Laura, my present colleagues from the 9th and the 3rd floor, you all make our group the best place to work in. Thank you for all talks, jokes and cakes you brought to the group. I hope my next working place would be filled with people like You.

Putri, we are from different parts of the world and yet we share so many thoughts, ideas, interests and also experiences. You are a very inspiring person and You are like a sister to me. I hope we will have a chance to organize many more “Living room” concerts together!

ACKNOWLEDGEMENTS

Abel, I wish you could always be my office mate, not only because of your broad knowledge and ability to explain anything in a very simple way but most of all for your personality. You are a “Sun Child”, bringing positive energy just by being around.

Brenda and Yizhou, you are amazing office mates. When I was sitting in our office, I did not feel like being at work (although we did work hard!) Thanks to you and **Jielin** I’ve learned a lot about Chinese culture and not only!

Roberta, I am glad you were part of the group and that I had a chance to meet you. I could always count on some motivational and positive words from you although you were suffering from bad weather more than me.

Vera, I can’t imagine my time in Groningen without you! You are a great person, great neighbor and a great friend. Remember: “mi casa es tu casa”. Thanks to you I met some great people: **Xaver, Daniel, Anna Maria, Matt, Mina and Max**.

Andrea, you are one of the most energetic people I have ever met. Meeting you and talking to you is always motivating and inspiring, you are awesome!

Leah, I admire your hard work and dedication to medicine. Time spend with You was always filled with all sorts of fascinating stories.

Maciej, you were more of a help to me during my PhD journey (and not only) than you probably think. We were like a crew on the same ship “De Brink”, supporting each other, feeding each other and spending hours drinking delicious coffee and talking. Thanks to you I met some great people: **Gert, Pieter, Jonas, Ignacio and Eva, James and Magda**.

Sylwia, your online and live support was always very substantial and I am glad that it continues steadily throughout these years. I hope that one day, as in the past, we would live much closer to each other and I would be able to drop by for a coffee and one of your incredible baked goods.

Weronika, Hania, Gosia, Justyna, Kuba, Marysia & Maciek Family, Ewa and Łukasz Family and Ola & Maciek Family, thank you for all the gatherings, all the dinners and all the polish support in Groningen.

Magda, Kasia, Sinem, Joanna, Michalina, Agata, Karolina, I am very grateful to have friends like You who remember and are eager to find time for a meeting in spite of living in so many different countries.

Ana Maria, Matt, Laura, Tim, Gosia, Nicole, Vera, my “spanish club”, ¡Muchas gracias por organizar todas las reuniones, he aprendido tanto mucho!

Andrea, Isadora, Susana, Emilia, Floor, Vera, it was a pleasure to work on the development of GRIN student’s organization with such strong women like you.

Moja Rodzina, bardzo Was kocham i z głębi serca dziękuję Wam za bezwarunkowe wsparcie jakie mi dawaliście przez całe moje życie. Pomimo dzielącego nas dystansu, byliście zawsze blisko mnie a każdy powrót do domu był dla mnie zawsze długo wyczekiwany, radosny i czasem miał również działanie lecznicze. Czuję się niesamowicie szczęśliwa, że mam tak cudowną rodzinę!

My Family, I love you so much and from the bottom of my heart I thank you for your unconditional support throughout my whole life. Despite the physical distance, you were always there for me and the moments when I was coming back home for holidays were always awaited, happy and sometimes therapeutic. I feel so lucky and blessed to have such a wonderful family!
