The adoption of pottery into the New World

Exploring pottery function and dispersal in Southwest Alaska
through organic residue analysis

PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on
Tuesday 12 May 2020 at 16.15 hours

by

Marjolein Admiraal

born on July 11, 1984 in Lutjegast, the Netherlands

Supervisors

Prof. P.D. Jordan

Prof. O.E. Craig

Assessment Committee

Prof. B. Fitzhugh

Prof. J. van der Plicht

Dr. C. Heron

TABLE OF CONTENTS

	List of illustrations	
	List of tables	
Chapter 1	General introduction	1
Chapter 2	Research context: Understanding the function of container technologies in prehistoric Southwest Alaska	9
Chapter 3	Methodology: Organic residue analysis and the identification of lipid biomarkers in pottery	34
Chapter 4	Leftovers: the preservation of manufacture-derived aquatic lipids in Alaskan pottery	61
Chapter 5	Investigating the function of prehistoric stone bowls and griddle stones in the Aleutian Islands by lipid residue analysis	82
Chapter 6	Adoption of pottery into the New World Arctic linked to intensive riverine fishing	102
Chapter 7	Resource-based social boundaries in Kodiak Island prehistory: Investigating the adoption and rejection of pottery with organic residue analysis	134
Chapter 8	General Conclusions	185
	References	201
Appendix		
	Summary in English	231
	Samenvatting in het Nederlands	232
	Acknowledgements	235
	Curriculum Vitae	237

List of figures

Chapter 1

Figure 1.1	Map of Northeast Asia and Alaska	2
Figure 1.2	Map of Southwest Alaska	3
Figure 1.3	Map of the Aleutian Islands	6
Figure 1.4	Map of the Alaska Peninsula	6
Figure 1.5	Map of Kodiak Island	7

Chapter 2

Figure 2.1 (6.1)	Map of Alaska	11
Figure 2.2 (6.2)	Stone bowl fragment from the Aleutian Islands	14
Figure 2.3 (6.3)	Stone bowl fragment from the Aleutian Islands	14
Figure 2.4 (6.4)	Stone lamp from the Aleutian Islands	14
Figure 2.5 (6.5)	Griddle stone fragment from the Aleutian Islands	16
Figure 2.6 (6.6)	Norton pottery of the Smelt Creek phase	19
Figure 2.7 (6.7)	Norton pottery of the Brooks River Weir phase	19
Figure 2.8 (6.8)	Alaska Peninsula pottery profiles	20
Figure 2.9 (6.9)	Thule pottery from the Kuskokwim River	22
Figure 2.10 (6.10)	Koniag pottery	26

Chapter 3

Figure 3.1	Structure of a triacylglycerol	38
Figure 3.2	A typical total ion current of an acid/methanol extract	44
Figure 3.3	Partial summed mass chromatogram (m/z 105)	45
Figure 3.4	Characteristic ions of various dihydroxy acids	47
Figure 3.5	Carbon nitrogen reference bulk values of archaeological and modern references	52

Figure 3.6	Compound specific isotope reference values	54
------------	--------------------------------------------	----

Chapter 4

Figure 4.1	Map of Alaska	63
Figure 4.2	Alaskan pottery sherd with foodcrust	65
Figure 4.3	Results of the firing experiment	68
Figure 4.4	Chromatograms of total lipid extracts of firing experiment samples	70
Figure 4.5	Empty voids as observed in general matrix XP of Norton samples	71
Figure S4.1	Conference poster as presented at the 8 th International Symposium on Biomolecular Archaeology in Jena, 2018.	81

Chapter 5

Figure 5.1	Map of the Aleutian Islands	84
Figure 5.2	Example of stone bowl fragments	86
Figure 5.3	Stone bowl	86
Figure 5.4	Griddle stone fragments	87
Figure 5.5	A typical total ion current of an acid/methanol extract of a stone bowl from the Margaret Bay site	89
Figure 5.6	Percentage of SRR diastereomers in total phytanic acid, Aleutian Island samples	89
Figure 5.7	Partial summed mass chromatogram (<i>m/z</i> 105)	90
Figure 5.8	Compound specific isotope results Aleutian Island artefacts	90
Figure 5.9	Bulk isotope results Aleutian Island artefacts	91
Figure 5.10	Schematic diagram of stone bowl and griddle stone relative abundance	92
Figure S5.1	Conference poster as presented at the 83 rd Annual Meeting of the Society for American Archaeology in Washington DC, 2018	101

Chapter 6

Figure 6.1	Percentage of SRR diastereomers in total phytanic acid, Alaska	106
------------	----------------------------------------------------------------	-----

	Peninsula samples	
Figure 6.2	Bulk isotope results Norton and Thule pottery	108
Figure 6.3	Compound specific isotope results of Norton and Thule pottery	109
Figure 6.4	Map of Alaska showing all pottery sites	111
Figure 6.5	Map of Northeast Asia and Alaska showing distribution of pottery sites	112
Figure S6.1	Pottery of the Norton phase on the Alaska Peninsula	116

Chapter 7

Figure 7.1	Map of Kodiak Island showing ceramic and non-ceramic Koniag sites	138
Figure 7.2	Koniag pottery	146
Figure 7.3	Percentage of SRR diastereomers in total phytanic acid, Koniag samples	153
Figure 7.4	Bulk isotope results of Koniag pottery	156
Figure 7.5	Compound specific isotope results of Koniag pottery	158
Figure 7.6	Map of Kodiak Island showing pottery distribution vs. distribution of whaling sites	165
Figure S7.1	Rim shapes of Koniag pottery from the Karluk One site	173

List of tables

Chapter 2

Table 2.1 (6.1)	Culture history of container technology occurrence in Southwest Alaska	12
-----------------	------------------------------------------------------------------------	----

Chapter 4

Table 4.1	Presence of compounds in GC-MS chromatograms after firing experiment	69
Table S4.1	Results of firing experiment	77

Table S4.2	Results of petrographic analysis	78
Table S4.3	Pottery samples for water test sintering stage	79

Chapter 5

Table 5.1	Prehistory of the eastern Aleutian Islands	85
Table S5.1	Organic residue results Aleutian Island artefacts	96
Table S5.2	Bone collagen data from archaeological contexts in the Aleutian Islands and the Alaska Peninsula	99

Chapter 6

Table S6.1	Sample information Alaska Peninsula	117
Table S6.2	Results of lipid residue analysis, Alaska Peninsula	119
Table S6.3	Compound specific and bulk isotope results Alaska Peninsula	122
Table S6.4	Northeast Asian pottery sites as shown in Figure 6.5	124
Table S6.5	North American pottery sites as shown in Figure 6.4 and 6.5	129

Chapter 7

Table 7.1	Kodiak Island culture history	143
Table S7.1	List of Koniag sites as shown in Figure 7.1	174
Table S7.2	Sample information Kodiak Island	177
Table S7.3	Results of organic residue analysis Koniag pottery	179
Table S7.4	Compound specific and bulk isotope data Koniag pottery	183
