Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. C. Wijmenga
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

maandag 26 oktober 2020 om 16.15 uur

door

Quint Augustinus Johannes Hagdorn

geboren op 5 december 1992
te Groningen

Promotores

Prof. dr. R.M.F. Berger
Prof. dr. R.A. de Boer

Copromotor

Dr. T.P. Willems

Beoordelingscommissie

Prof. dr. P. van der Harst
Prof. dr. G.P. Diller
Prof. dr. D. de Wolf

TABLE OF CONTENTS

	Introduction	
Chapter 1a.	General introduction	9
Chapter 1b.	Setting the stage for increasing diversity in congenital cardiology: let's celebrate the 75 th anniversary of the Blalock-Thomas-Taussig shunt <i>Cardiology in the Young</i> 2020	25
Chapter 2.	Systematic Review of Volume Load-Induced Right Ventricular Dysfunction in Animal Models: A Translational Gap in Congenital Heart Disease <i>European Journal of Heart Failure</i> 2018	29
	Experimental studies	
Chapter 3.	A novel method optimizing the normalization of cardiac parameters in small animal models: the importance of dimensional indexing <i>American Journal of Physiology - Heart and Circulatory Physiology</i> 2019	49
Chapter 4.	Volume load-induced right ventricular failure in rats is not associated with myocardial fibrosis <i>Submitted</i>	61
Chapter 5.	Inhibition of the prolyl isomerase Pin1 attenuates vascular remodeling in pulmonary arterial hypertension by inhibiting TGF β /FOXO1/PLK1 signaling <i>Submitted</i>	83
Chapter 6.	Female sex is protective for clinical heart failure in a juvenile rat model of right ventricular pressure load <i>Ready for submission</i>	111
	Clinical studies	
Chapter 7.	Risk of cardiac tachyarrhythmia in patients with repaired tetralogy of Fallot: a multicenter cardiac MRI based study <i>International Journal of Cardiovascular Imaging</i> 2018	127
Chapter 8.	Cardiac magnetic resonance left ventricular strain-rate predicts ventricular tachycardia but not deterioration of ventricular function in patients with repaired tetralogy of Fallot <i>International Journal of Cardiology</i> 2019	145
Chapter 9.	Sex differences in patients with repaired tetralogy of Fallot support a tailored approach for males and females: a cardiac magnetic resonance study <i>International Journal of Cardiovascular Imaging</i> 2020	163
Chapter 10.	General discussion	185
Appendices.	Dutch summary	200
	About the author	204
	Acknowledgements	206
