About the author

Juhyun Lee is a multi-disciplinary researcher and practitioner who has about 15 years of experience of working on urban planning research and policy across the globe. She holds a Master degree in Managing Archaeological Sites (2006) from Institute of Archaeology, and Research Master in Interdisciplinary Urban Design (2016) from the Bartlett School of Planning, University College London. She also holds Graduate Certificate in Globalisation, Environment and Development (2009) at the Birkbeck College, University of London. Since 2007, Juhyun Lee has worked as an urban specialist with various international organisations such as UN-Habitat and UNESCO in Asia. She led various projects of developing green-growth city development strategy through strategic planning with national, provincial, and city governments and local communities. She has been also dedicated to designing and conducting trainings for political leaders and planners in the area of strategic planning, multi-sectoral investment planning, and leadership development for sustainable urbanisation. Moreover, she has extensive experiences of working as a planning consultant and researchers for private sectors in Korea and UK. Since 2015, she has been involved with environmental and social impact assessment of mega projects for development banks.
