Propositions :

1. *Legeartis* is needed in drug formulation and food preparation.
2. In completing a thesis book, it is very difficult to adhere to all requirements and a graciousness attitude is really needed at the end.
3. Doing structure elucidation is the same as arranging puzzles (chapter 4).
4. Looking to the world through the lens of a camera will show how big the world is.
5. Analyzing dehydroxyphorbol esters (DHPE) using  $\alpha$  and  $\beta$  phorbolmyristic acetate (PMA) as standards will lead to errors in the quantification (chapter 3).
6. Studying and understanding all characteristics of light will teach us to become a good photographer.
7. Although the phorbol esters are considered to be toxic, they can be of significance for the development of novel drugs (chapter 2).
8. Facing many problems in life is a good lesson to become wise.
9. Groningen is like Bandung, talking in "sundanese" is not impossible here.
