## About the author

Iveta Nagyova was born on July 2, 1972 in Kralovsky Chlmec, Slovak Republic. After completing secondary school in Velke Kapusany she proceeded to study psychology at the Philosophical Faculty, University of PJ Safarik, Kosice. Her master's degree thesis dealt with "Attributional complexity". After graduation, in the years 1995-1999 she worked as a lecturer and researcher at the Department of Social Medicine, Medical Faculty, University of PJ Safarik, Kosice. She delivered lectures on introduction to psychology, social psychology, methodology of research and statistics. The topic of her research was the quality of life in patients with rheumatoid arthritis. In the years 1999-2003 she was a project manager for the Social Work Advisory Board, a non-governmental organization. She co-operated on projects aimed at improving the quality of social services, involving their transformation, decentralisation and deinstitutionalisation. In 2004 she started work at the Institute of Social Sciences, Faculty of Science, University of PJ Safarik as a researcher. Her professional interests include: research on quality of life in patients with a chronic disease and the disabled, as well as methodology of research and statistics.
