**ABOUT THE AUTHOR**

Hanneke Jansen was born in Winterswijk, the Netherlands, on September 14th, 1982.

She received her primary education at “de Hooiwipper” in Lichtenvoorde and her secondary education at “De Driemark” in Winterswijk, from which she graduated in 2001. She started her medical studies at the University of Groningen in September 2002. In the third year she started a research project at the Department of Paediatrics, Division of Paediatric Oncology, on obesity in children with acute lymphoblastic leukaemia, supervised by Dr. A. Postma. This research project was the basis for a MD/PhD-track which was granted in September 2006 and supervised by Prof. Dr. R.P. Stolk, Department of Epidemiology. After two years of internships, with eight months research in between, she graduated from medical school in December 2009. From January 2010 until March 2011 she was trained in clinical and genetic epidemiology at the University Medical Center Groningen and the University Medical Center Utrecht, and she will be registered as epidemiologist in the near future. During her internships and epidemiology training she performed the studies described in this thesis, which were finished in March 2011. Currently she works at the emergency department of the Streekeziekenhuis Koningin Beatrix in Winterswijk. In September 2011 she will start with her general practitioner training, combined with a post-doc position, at the Julius Center for Health Sciences and Primary Care of the University Medical Center Utrecht, under supervision of Prof. Dr. G.E.H.M. Rutten.
