EFFETS OF BILE SALTS
ON
HEPATIC LIPOPROTEIN PRODUCTION

RIJKSUNIVERSITEIT GRONINGEN

**EFFECTS OF BILE SALTS
ON
HEPATIC LIPOPROTEIN PRODUCTION**

PROEFSCHRIFT

ter verkrijging van het doctoraat in de
Medische Wetenschappen
aan de Rijksuniversiteit Groningen
op gezag van de
Rector Magnificus, dr. F. Zwarts,
in het openbaar te verdedigen op
woensdag 11 juni 2003
om 14.15 uur

door

Baukje Marije Elzinga

Research

Studies described in this thesis were conducted within the Groningen University Institute for Drug Exploration (GUIDE), Center for Liver, Digestive, and Metabolic Diseases, Department of Pediatrics, Faculty of Medical Sciences, University of Groningen, the Netherlands.

Funding

The studies described in this thesis were supported by grant 902-23-244 from the Netherlands Organization for Scientific Research (NWO), Den Haag, The Netherlands.

Printing of this thesis was financially supported in part by the following:

Nederlandse Organisatie voor Wetenschappelijk Onderzoek (NWO), Den Haag, The Netherlands

Groningen University Institute for Drug Exploration (GUIDE), Groningen, The Netherlands

Nederlandse Vereniging voor Hepatology, Haarlem, The Netherlands

Hope Farms BV, Woerden, The Netherlands

Dr. Ir. Van de Laar Stichting, Heerlen, The Netherlands

Dr. Saal van Zwanenberg Stichting, Oss, The Netherlands

Printer

Ponsen & Looijen BV, Wageningen, The Netherlands

TABLE OF CONTENTS

Chapter 1:	General Introduction	9
Chapter 2:	The Role of Transhepatic Bile Salt Flux in the Control of Hepatic Secretion of Triacylglycerol-rich Lipoproteins <i>In Vivo</i> In Rodents <i>Biochimica Biophysica Acta 2002, 1573 (1): 9-20</i>	45
Chapter 3:	Effects of Bile Salt Flux Variations on the Expression of Hepatic Bile Salt Transporters <i>In Vivo</i> in Mice <i>Journal of Hepatology 2002, 37: 556-563</i>	71
Chapter 4:	Stimulation of Lipogenesis by Pharmacological Activation of the Liver X Receptor (LXR) Leads to Production of Large, Triglyceride-rich VLDL Particles <i>Journal of Biological Chemistry 2002, 277 (37): 34182-34190</i>	89
Chapter 5:	Differential Effects of Farnesoid X Receptor-deficiency on Hepatic and Intestinal TG-rich Lipoprotein Formation in Mice <i>Submitted</i>	115
Chapter 6:	Inhibition of Apolipoprotein B Secretion by Taurocholate is Independent of Lipoprotein Assembly in Rat Hepatoma McA-RH7777 Cells <i>Submitted</i>	145
Chapter 7:	General Discussion	169
	Summary	183
	Nederlandse samenvatting	189
	Dankwoord	195
	Curriculum vitae	201
	Publication list	202
