ABOUT THE AUTHOR

Arsalan Haseeb Zaidi received his Master of Science degree in Biological Sciences from Quaid-i-Azam University, Islamabad, Pakistan in 1998. After a brief stint working with the department of forestry, he joined a public sector-affiliated research institute in 2000 which specializes in use of biotechnology for sustainable development. Here, he was associated with projects relating to soil and plant microbiology and this involved working in different national and international laboratories. In 2006 he was selected for the PhD program in molecular microbiology in The Netherlands under the aegis of a scholarship by the higher education commission (govt. of Pakistan). He received his doctoral degree from the University of Groningen, The Netherlands in April of 2011. His research interests include drug resistance and biofilm development in bacteria. He plans to initiate a research program in his home country in the field of food sciences focusing on lactic acid bacteria in particular. Arsalan lives in Islamabad, Pakistan with his family and he can be contacted via his email; azlanzaidi@yahoo.com.
