<i>Acknowledgements</i>	<i>i</i>
<i>List of Tables</i>	<i>vii</i>
<i>List of Figures</i>	<i>x</i>
<i>Glossary of Acronyms</i>	<i>xi</i>
1 Introduction	1
1.1 Exploration of the Problem	1
1.2 Focus of this study	3
1.3 Research objective	4
1.4 Limitations of the scope of the study	4
1.5 Outline of the thesis	4
2 Description of the Pangasius Production in the Mekong River Delta, Vietnam	7
2.1 Introduction	7
2.2 Aquacultural production in Vietnam	7
2.3 Pangasius production systems	12
2.4 Development of the regulatory framework	15
2.5 Organization and certification	17
2.6 Conclusions	20
3 Theoretical Review	23
3.1 Introduction	23
3.2 Development of food quality management: quality control and quality assurance	23
3.3 Global value chains	30
3.4 The role of smallholders in the food chains and major challenges of their inclusion in food export chains	34
3.5 Empirical studies of inclusion of smallholders to global value chains	42
3.6 Conclusions	51
4 Research Methodology	53
4.1 Introduction	53
4.2 Fish quality management and smallholders: conceptual framework for the study	53
4.3 Research design	56
4.3.1 In-depth interviews	56
4.3.2 The multiple-case study	57
4.3.3 Survey 1	59
4.3.4 Survey 2	62
4.4 Conclusion	63
5 Actors in the Value Chain of the Pangasius Industry	65
5.1 Introduction	65
5.2 Primary actors in the Pangasius value chain	67
5.2.1 Pangasius hatcheries/nurseries	67
5.2.2 Fingerling trader	70
5.2.3 Pangasius small-scale farmers	71
5.2.4 Pangasius trading	73
5.2.5 Processing/export firms	74
5.3 Supporting institutions in the Pangasius value chain	75
5.3.1 Ministry of Fisheries (MOFI)	75
5.3.2 The Vietnam Association of Seafood Exporters and Producers (VASEP)	76

5.3.3	Export and Quality Control Organization (NAFIQAVED)	76
5.3.4	Several financial institutions	77
5.3.5	The Provincial People's Committee (PPC)	77
5.3.6	Vietnam Fishery Association	77
5.3.7	Aquaculture research institutes and universities	78
5.3.8	Aquaculture extension and technology transfer	79
5.3.9	Departments of fisheries	79
5.3.10	Feed suppliers	79
5.3.11	Chemical/veterinary drugs suppliers	79
5.4	Conclusions	80
6	Legal Aspects and Quality Assurance	81
6.1	Introduction	81
6.2	Legal aspects of EU markets for food safety and fishery products	82
6.2.1	Description of the EU food safety perspective	82
6.2.2	EU legislations governing fishery product safety and quality	82
6.2.3	The role of the Food and Veterinary Office (FVO)	86
6.2.4	EU border control practices	87
6.2.5	Rapid Alert Systems for Food and Feed	89
6.2.6	Importers' requirements and their effect on other chain members	91
6.3	Quality assurance regulations and systems for fish export in Vietnam	93
6.3.1	Vietnamese institutions for fish safety	94
6.3.2	The role of National Fisheries Quality Assurance and Veterinary Directorate (NAFIQAVED) for fish quality issues	94
6.4	Conclusions	101
7	Quality Control and Quality Assurance at the Fish Processing Firm	103
7.2	Output: customers (Pangsius export markets)	104
7.3	Input: suppliers	106
7.4	Quality control of fish raw materials sources	108
7.4.1	Processing companies' own farms	108
7.4.2	Affiliated farms	108
7.4.3	Fishery association	109
7.4.4	Independent farmers	109
7.4.5	Quality assurance and governance of raw materials	110
7.5	Quality control and quality assurance system at the processing firm level	114
7.6	Conclusions	116
8	Farming Practices of Pangasius Pond Aquaculture in Vietnam	117
8.1	Introduction	117
8.2	Personal characteristics of Pangasius farmers	117
8.3	Farming practices	118
8.3.1	Site selection	119
8.3.2	Water management	124
8.3.3	Fingerling and stocking	126
8.3.4	Feed	128
8.3.5	Harvest and sale	131
8.4	Labor	134
8.5	Finances	135
8.6	Extension Services	137
8.7	Conclusions	139
9	Fish Disease Prevention and Treatment Practices at the Farm Level	141
9.1	Introduction	141

9.2	Fish diseases and level of occurrence in Pangasius production	142
9.3	Recommendations for fish disease prevention and treatment	146
9.4	Perception regarding fish disease prevention	148
9.4.1	Pond location	149
9.4.2	Water supply	150
9.4.3	Fingerlings	151
9.4.4	Feed	152
9.5	Fish disease treatment	153
9.5.1	Disease diagnosis	153
9.5.2	Disease treatment and responsible use of chemicals/veterinary drugs	154
9.6	Conclusions	156
10	Farmers' Awareness and Willingness to Apply Advanced Production Systems	159
10.1	Introduction	159
10.2	The differences in farming practice between small-scale farmers and APPU members (Survey 1, 2008)	159
10.3	Relationship between farming parameters and financial outcomes	160
10.3.1	Alternative farming business models	161
10.3.2	The advanced production system	163
10.4	Discussion of survey results in 2009	164
10.4.1	Fingerlings and stocking density	165
10.4.2	Feed and finances	170
10.4.3	Waste-water treatment pond	173
10.4.4	Chemicals/veterinary drugs used	175
10.4.5	Advanced production system	177
10.5	Conclusion	179
11	Concluding Remarks: Some Feasible Solutions	181
11.1	Introduction	181
11.2	The major research findings and conclusions	181
11.3	Feasible solutions for waste-water treatment pond	183
11.4	Feasible solutions for fingerling quality and stocking density	184
11.5	Feasible solutions for feeds and finances	186
11.6	Feasible solutions for veterinary drugs used	188
11.7	Conclusions to the main research problem	189
11.8	Some recommendations for policy makers	191
11.9	Further research	192
	Bibliography	195
	Appendices	211
	Summary	277
	Samenvatting (Summary in Dutch)	281
