Visual Hallucinations in Parkinson's Disease; clinical and fMRI studies

The work described in this thesis was performed at the Department of Neurology and Neuro Imaging Center of the University Medical Center Groningen, The Netherlands.

Printing of this thesis was financially supported by:

School of Behavioural and Cognitive Neuroscience (BCN)
University of Groningen (RuG)

Cover: Artistic modulation of a drawing of Leonardo da Vinci, combined with a brain activation image from this thesis and stills from the noise movies by Frans Cornelissen.
