About the author

Zuzana Tomčíková was born on December 5th, 1982, in Ružomberok, Slovakia. After the secondary school, she studied psychology at the Department of Psychology, University of Trnava. In May 2006 she graduated in psychology. Her Master thesis was dealing with the approaches in the family psychotherapy. After her university studies she started working as a researcher at PJ Safarik University in Kosice, Slovak Republic in September 2006 and at the same time she started her PhD studies at University of Groningen, The

Netherlands. Her research interest focuses on social and psycho-social determinants of adolescents' health and health-related behaviour, in particular on the role of family environment. In addition, she participated in the education process in the Faculty of Arts and in the Medical Faculty where she delivered lectures in Introduction to Psychology, Developmental Psychology and Communication in Medicine. She also participated as a lecturer in Social-psychological trainings for university students and supervised students' bachelor and master theses. During this time she worked as an external lecturer in Slovak Red Cross, delivering lectures in Psychology and Communication. Since 2009 she is participating on Health Behaviour in School-aged Children (HBSC) study, a multinational project conducted in collaboration with the World Health Organization. At present she is working at the Prague College of Psychosocial Studies.
