**Identification, characterisation and
expression of early biosynthetic genes from
*Artemisia annua***

**for the heterologous biosynthesis of dihydroartemisinic acid
as a first step towards artemisinin production**

Anna-Margareta Rydén

2010

RIJKSUNIVERSITEIT GRONINGEN

**Identification, characterisation and expression of
early biosynthetic genes from *Artemisia annua***
for the heterologous biosynthesis of dihydroartemisinic acid as
a first step towards artemisinin production

Proefschrift

ter verkrijging van het doctoraat in de
Wiskunde en Natuurwetenschappen
aan de Rijksuniversiteit Groningen
op gezag van de
Rector Magnificus, dr. F. Zwarts,
in het openbaar te verdedigen op
vrijdag 10 september 2010
om 11.00 uur

door

Anna-Margareta Rydén

geboren op 30 juli 1981
te Danderyd, Zweden

Promotores:

Prof. dr. O. Kayser
Prof. dr. W.J. Quax

Beoordelingscommissie:

Prof. dr. P. Brodelius
Prof. dr. I.J. van der Klei
Prof. dr. R. Verpoorte

The studies described in this thesis were performed at:

- the Department of Pharmaceutical Biology, University of Groningen, the Netherlands,
- the Metabolic Regulation Division, Plant Research International, the Netherlands,
- the Antibiotics Laboratory, RIKEN, Japan,
- and the Kihara Institute for Biological Research, Yokohama, Japan.

Transposition to Prepress by: Grafimedia, University of Groningen, Groningen, the Netherlands.

ISBN printed version: 978-90-367-4493-5

ISBN digital version: 978-90-367-4494-2

Contents

Chapter 1.....	9
Introduction and scope of the thesis	9
Chapter 2.....	24
Chemistry, biosynthesis and biological activity of artemisinin and related natural peroxides	24
Chapter 3.....	75
Molecular cloning and characterization of a broad substrate terpenoid oxidoreductase from <i>Artemisia annua</i>	75
Chapter 4.....	103
The molecular cloning of dihydroartemisinic aldehyde reductase and its implication in artemisinin biosynthesis in <i>Artemisia annua</i>	103
Chapter 5.....	125
Oxygen dependent biosynthesis of artemisinin precursors in yeast	125
Chapter 6.....	163
Role of peroxygenase in artemisinin production	163
Chapter 7.....	185
Summary, general discussion and future perspectives	185
Chapter 8.....	193
Nederlandse samenvatting	193
Acknowledgements.....	201
Publication list	207
Curriculum vitae	211
